

Principal's Message

Dear Parents

**Swami Vivekananda once said, "Education is the manifestation of the perfection already in man".**

*Adequately realizing this need, the school becomes the axis of knowledge, erudition and empowerment. With growth and change at a global level, it is our endeavour to provide quality education to make every child eligible to compete with the world outside, cultivating not merely the intellect but also nurturing in them the moral & ethical values. Thus, making them capable of assimilating, understanding and deciding the course of action. Our vision of true education is creating a healthy surrounding, upholding moral values, imbibing life-skills in our students and addressing the global issues.*

*In our school the latest reforms of NEP are seamlessly integrated, expanding the potential of students and thereby empowering them. The spectrum of curriculum encompasses the needs, aspirations and global well-being of individuals. The scholastic and co-scholastic activities enhance creativity, imagination, moral & intellectual capital of the students, making way for a well-defined holistic personality, thus fulfilling the need of the hour.*

*With the consistent and conscientious efforts of all stakeholders, The Mahavir School fosters a magnificent and memorable learning experience.*
