ABOUT US

PP International School is an elite, progressive senior secondary school affiliated with the Central Board of Secondary Education, and recognized by the Directorate of Education, Delhi. We believe in teaching our students “how” to think rather than “what” to think so that they can make informed choices. We aim to create a stimulating and engaging atmosphere to hone a child’s latent potential. We are dedicated to assisting each student to discover his or her real purpose in life, with a curriculum that incorporates the finest of the eastern and western systems of education. We never leave any stone unturned to empower our students in the best possible way and create globally accepted leaders for tomorrow. We believe in exposing our students to cutting-edge technology and have been a trendsetter in imparting quality education by imbuing them with the confidence to be the catalysts of change.

OUR VISION

PP International School has the vision to inspire, educate, challenge, and encourage our students to be at par with the world. We believe in providing a stimulating, congenial and cognitive environment, emphasizing the development of analytical, critical, and rational thinking of the students. The school has developed a conducive learning environment and ample opportunities are provided to its students with a motto to identify and fulfill academic, cultural, and social quests through multiple paths of learning. New doors are open wide and new deeds are brought into action for the students of the school. We believe in preparing future citizens who are competent enough to cope with the fast-changing contemporary and competitive world.

OUR MISSION

At PP International School, we have a mission to ensure that children:

- Acquire the values of empathy, respect, cooperation and collaboration in a safe, tranquil and stimulating environment.
- Get enough opportunities to hone their intellectual, social, emotional and creative potential.
- Learn through inquiry-based and student-centric approach.
- Acquire the skill of adjusting and excelling in this dynamic world.
- Become self-inspired learners.

Carefully designed, effective and continuous assessments

Skill-based Learning

Holistic Development

Art and Cultural Integration

Experiential Learning

Conducive Teaching-Learning Environment

Empowering students to be self-reliant

Education with a smile!

OUR VALUES!

The sole aim of PP International School is to raise global citizens who, by acknowledging their shared humanity and responsibility for the earth, contribute to the development of a more benevolent and peaceful world. These principles, in our opinion, can assist individuals and groups in becoming accountable members of their local, national, and international communities. At PP International School, happiness and education are inextricably linked. This improves both their self-motivation and their learning experience.

Cooperation

We work well together with all our students. We want everyone to learn and succeed, and this requires us to work together and share in order to excel.

Sollicitous

We demonstrate compassion, respect, and empathy. We are dedicated to serving humanity, and we take action to improve the lives of those around us and the environment.

Integrity

We are both honest and driven by a clear moral compass. We believe that students with integrity strive to do right things at all times. Ethics and fairness play important roles in upholding integrity at PP International school.

Respect

We respect one another's right to safety and dignity at school. We speak to each other with calmness, politeness, and civility. We treat others with consideration, respect each other's point of view, and treat everyone fairly.

Compassionate

We are a school that grows children who care for one another, are concerned about the suffering of others, and want to act to make a better world.

Mindfulness

Mindfulness training is a matter of helping students become self-aware and clear about their behavior. This is a foundational goal that our school agrees on and aspires to for all our students.

Innovation

We continually challenge ourselves to create new ideas and innovative solutions in a technology rich environment.

Critical Thinking

We use critical and creative thinking skills to analyse and take responsible actions on complex problems. We exercise initiative in making reasoned & ethical decisions.

Collaboration

We believe in encouraging students to see mutual assistance as a goal to strive for, to view others as potential collaborators. We collaborate effectively, listening carefully to the perspectives of other individuals and group at large.

INNOVATIVE TEACHING METHODOLOGIES

PROJECT BASED LEARNING

Projects are an efficient hands-on learning method based mostly on the inquiry method. It involves students studying and experimenting in small groups. Projects give students hands-on experience with a variety of multidisciplinary skills.

INTERACTIVE APPROACH

Interactive learning is a hands-on, real life approach to education founded upon building student engagement through guided social interaction.

Carefully designed and structured activities facilitate learning in groups, fostering a challenging but encouraging space for students to wrestle with novel concepts and develop practical skills.

INQUIRY-BASED LEARNING

Unlike traditional classroom learning, where teachers present facts and knowledge about a topic, inquiry-based learning is an innovative strategy where PPians build knowledge in the same way rather than being given ready-made information to memorize and practice as professional scientists. It is more than just simply asking students a lot of questions. It is about igniting curiosity and a hunger for answers.

EXPERIENTIAL LEARNING

The premise behind Experiential Learning is that we learn better when we really "do" something. At PPI, we take this approach to ensure that students have equal opportunities to gain broad information and grow intellectually, creatively, emotionally, socially, and physically. When students have a learning experience, they can put their theoretical knowledge into practice, which improves critical thinking, logical conceptualization, and self-confidence.

PERSONALISED APPROACH TOWARDS LEARNING

Personalized learning involves an educational environment and curriculum that revolves around each student's needs and abilities. We nurture curiosity and encourage our students to embrace their true selves and share their uniqueness. Our school establishes a rapport with students based on their individuality, and respect and design its teaching methods for classroom transactions. Our teachers assign students instructional materials, videos and presentations to be viewed at home also called Pre-Content, prioritizing active learning.

Education with a smile!

MODERN LEARNING TECHNIQUES

PAS

The school has adopted the Precision Assessment System (PAS) or clickers for assessment reasons, in which each student uses a 'clicker' to provide an answer to the question. The teacher's computer software collects the students' responses and generates a bar chart showing how many students chose each of the answer options. This feedback can be used by students to keep track of their personal progress.

GOOGLE APPS FOR EDUCATION

Technology has become a crucial part of our lives in this day and age. We can break free from the constraints of traditional classrooms and revolutionize the way we teach and learn using technology. To circumvent the limitations of traditional classrooms, the school has implemented Google Apps for Education, which allows students to learn at any time and from any location over the internet. The school curriculum incorporates G Suite Apps for Education in every teaching-learning process.

PREZI

The school has implemented an engrossing and innovative teaching-learning methodology that includes the use of PREZI software, which is an advancement over traditional PowerPoint presentations and promotes a linear thinking mode through interactive presentations that encourage students and teachers to organise and connect ideas with specialised features to delve deeper into the topic. It creates spectacular interactive visual experiences that allow you to change on the fly and focus on the issues that students care about the most. Students construct their presentations almost entirely by scrolling through the slides, making learning more accessible to them.

INFRASTRUCTURE AND FACILITIES

PP International is a vibrant digital- savvy school spread across 7200 sq. mt. with the state of art infrastructure which includes interactive smart classes, well-equipped labs, extensive library, nutritious meals & air-conditioned buses with GPRS and CCTV cameras. The school provides medical care facilities in cooperation with Max, Shalimar Bagh, to ensure the health and safety of our students.

A Safe And Secure School Campus

- The school has a three-tier CCTV surveillance system that operates throughout the premises to ensure students' safety at all times.
- Sanitized learning environment is created for students using globally recognized pandemic protocols.
- The school has implemented an Radio Frequency Identification (RFID)-based attendance system that automates the students' attendance process and helps the school management and the parents to track and screen each and every movement of their children through SMS alerts.

Transport

- We provide transport facilities to all students, covering all areas across Delhi. The presence of a certified conductor and bus driver, a female attendant, along with safety tools like first-aid kit, fire extinguisher, CCTV and GPS tracking ensures the safety of our students in the air- conditioned buses.
- The school bus GPS system allows for real-time location tracking. With this, both the school authorities and parents can track the school bus in real-time. The GPS tracking system ensures that parents are sent alerts as soon as the bus leaves the school premises.

Medical Facility

- Our motto has always been health and safety first combined with best infrastructure and world class equipment.
- Comprehensive health care is provided to our students. As part of this endeavour, we have a full-time nurse from Max Hospital. The school has a fully equipped air-conditioned medical room. Medical check-up of the students is carried out from time to time.

Meals

- Nutritional, healthful, and delectable meals are served to the students in school. Monthly Meal Menus are planned for all the classes and shared with the parents in advance. The goal is to teach students fundamental eating etiquette especially during the formative years, in addition to providing healthy food. The school is attempting to establish a progressive culture of eating and learning together, as well as improving students' interpersonal skills, by offering meals.

INFRASTRUCTURE AND FACILITIES

Education with a smile!

Robotics Lab

- Our school is equipped with a Robotics lab to get students excited about science, technology and engineering. It supplies advanced set of building blocks which can be used as tools for building simulated real world situations
- Robotics learning system covers all four fields-STEM(Science, Technology, Engineering and Mathematics) through hands on learning.
- Robotics learning will challenge students to apply Math and Science concepts to real life problems.

Science Lab

- The School has a well-equipped Science lab with all the Scientific Instruments that allows students to get a first-hand learning experience by performing various experiments on their own making teaching-learning effective and interesting. Lab activities are perfectly amalgamated with the classroom teaching in order to ensure that the students' deep understanding the concepts that can be retained forever if they learn by doing.

Maths Lab

- Our Maths Lab offers Multiple Teaching and Learning aids as well as a complete theme based ambience which helps students to visualize and perceive Mathematics. Based on the three pillars of 'Imagination, Investigation and Interaction', it provides an opportunity to students to understand, internalize, discover and verify the basic mathematical and geometrical concepts through concrete objects and situations.

Computer Lab

- Our School has a modern set up of computer lab with advanced techniques, latest hardware and software systems to meet the academic requirements of our students. Well trained educators train the students with the help of usage of Smart Board available in the lab. The internet facility is also available meeting the required academic needs and it is fully in control of the educator so that the students use it in limits.

Library

- The library at PP International School is well-equipped, with several international publications and a wide range of books written by renowned authors of various genres. We have books, magazines, and journals on every topic imaginable to feed the mind. Every student is encouraged to read and talk about what they've learned. The school also promotes the idea of a classroom library, which serves as a window into an educator's personality while simultaneously emphasising the significance of literacy in the classroom. Every classroom contains a library where students choose a book to read after finishing their class work.

We believe that sports is not just a good exercise but also teaches valuable lessons in team spirit, respect for others, fair-play and discipline. Sports forms a very important part of our daily routine and every student is encouraged to choose and participate in at least one sport and students can choose from a wide array of activities. Not only does it empower youth and promote higher self-esteem, it also motivates students and enables them to earn better grades. Keeping this in mind, the school offers special training in sports such as Skating, Basketball, Soccer, Lawn Tennis, Table Tennis, Taekwondo, Badminton, etc. The little ones can have fun in a safe and secure atmosphere with an indoor gym area that includes a Climbing Wall, Balancing Beam, and special outdoor play equipment. The student Play Station area is a one-of-a-kind combination of rubber granules and a cushioned layer surface that provides vital fall protection.

The Programme aims to encourage students to:

Understand how strategies can assist when participating in physical activities.

Learn about body control and spatial awareness.

Master new skills and techniques in a variety of physical activities & manipulate sports equipment or apparatus.

Use co-operative behavior in order to function as part of a group or team.

Recognize the importance of fair play and sportsmanship.

Use proper safety precautions when engaging in physical activities.

THE PERFORMING ARTS

Indian Dance

Western Dance

Vocal Training

Musical Instrument Training

Theater and Drama

PP International School is an institution that believes in going beyond academics and places special emphasis on extracurricular activities, which are crucial to the overall growth of the child. Our students are confident and well-rounded due to the regular inclusion of theatre and speech sessions along with music and dance training as a part of our curriculum. Our belief is that there is a musician, a dancer, an orator and an artist hidden in every child waiting to be discovered.
