WELCOME TO RYAN INTERNATIONAL SCHOOLS

Welcome to the Ryan International Schools,

“Where the mind is without fear”. At Ryan, students are encouraged to be themselves and explore without boundaries. Ryan School will teach your children to think, explore and learn with joy.

This brochure will help you as parents to experience the commitment that we make in shaping the future of your child. We thank you for considering Ryan International School and warmly welcome you into the Ryan World.

THE RIGHT SCHOOL

At Ryan we understand the importance of selecting the right school for your child. As parents, it is natural to want the very best for your kids and to feel a sense of satisfaction with your decision.

Through this prospectus, we want to show you 7 reasons to join Ryan and why we are the right choice.

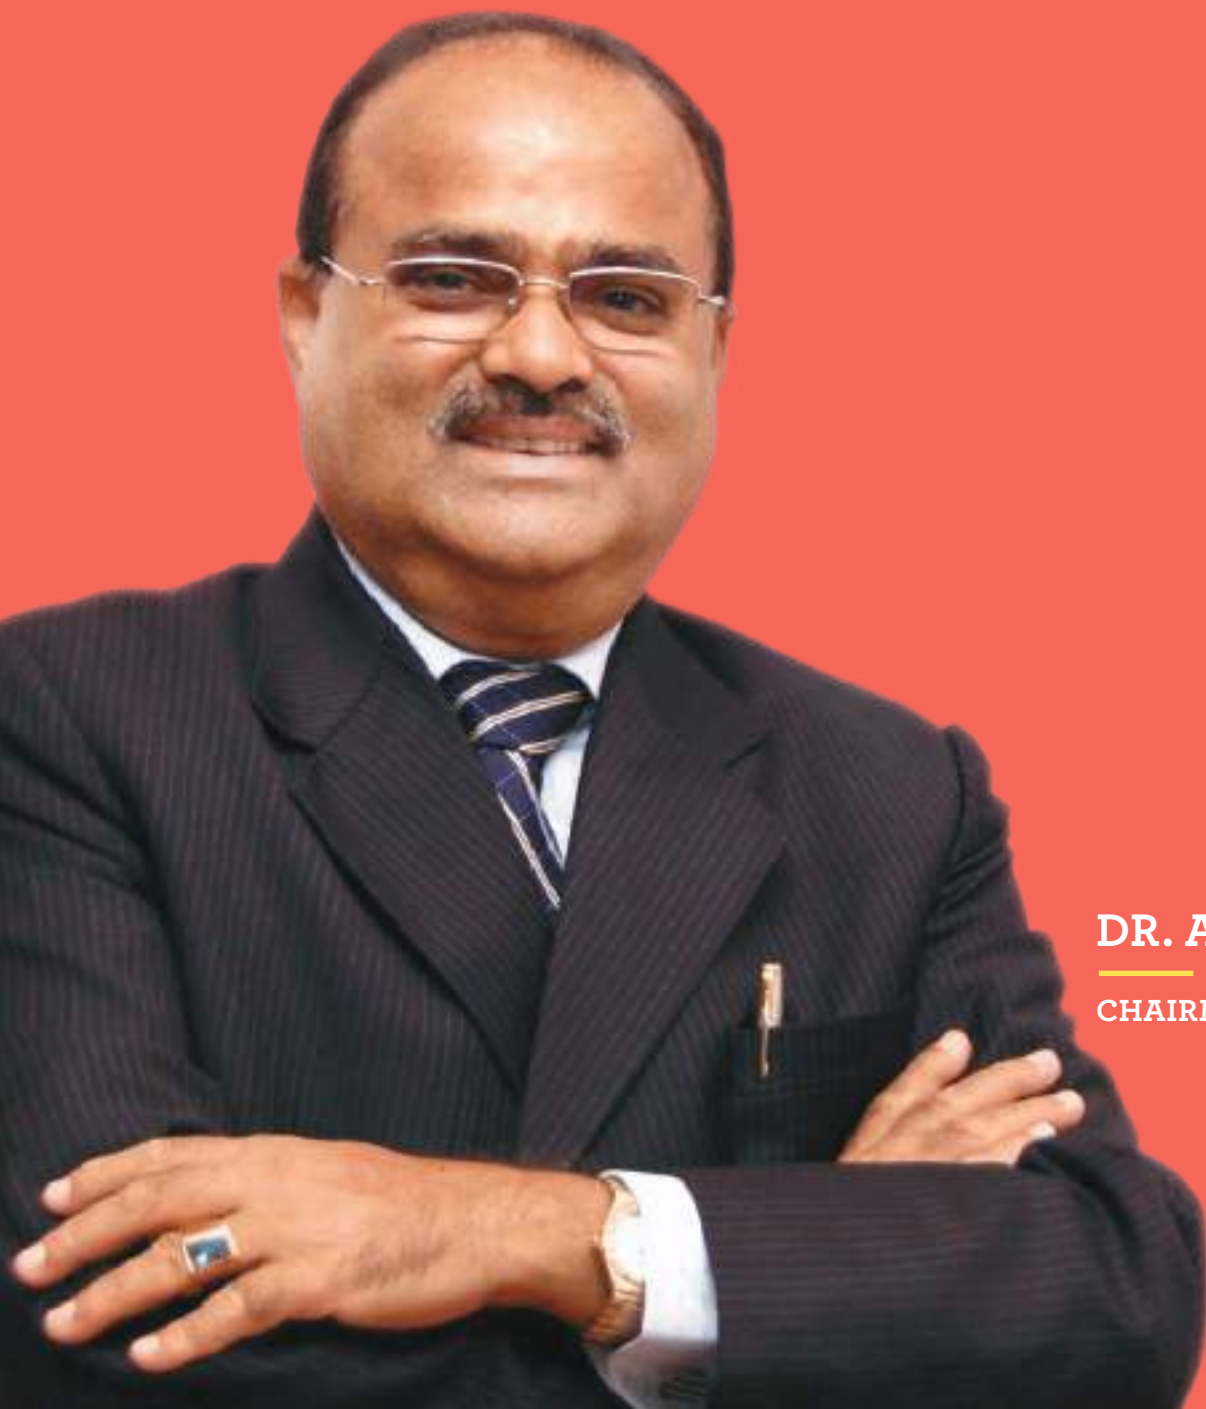

A young man with dark hair, wearing a dark blue blazer over a light-colored patterned shirt and a bright blue tie, is walking in a school hallway. He is laughing heartily, with his hand near his mouth. He is carrying a book under his left arm. In the background, a sign with the word 'VIB' is visible on the wall. To his right, another student is partially visible, carrying a large blue backpack.

AMONG TOP RANKED SCHOOLS OF INDIA

RYAN SCHOOLS ARE AFFILIATED TO

DR. A.F. PINTO

CHAIRMAN

I AM DEDICATED TO SHAPING RESPONSIBLE CITIZENS

Forty years ago, I laid the foundation of my dream project - the Ryan International Group of Institutions. In these forty years, India has been abundantly blessed with material wealth and economic progress. But economic wealth is not enough to shape a future. The real wealth of our nation lies in the intellectual power of our future generations. We, at Ryan, believe that it is our role to enhance this intellectual wealth for our next generation. I have since made it my commitment to equip young India with all the tools, skills and know-how it requires to stand toe-to-toe with the best in the world. Education is not simply about academic achievement. For me, it has always been about being a global citizen. – one who cares for and is empowered by the challenges of our future society. This can only be realised by imparting quality education, specially focused on development of “KASSM” (Knowledge, Attitude, Skills, Social and Moral Values). At Ryan International Schools, we are nurturing and building these citizens every day, both within and outside the classroom.

“For I know the plans I have for you,” declares the Lord, “plans to prosper you and not to harm you, plans to give you hope and a future.”

Jeremiah 29:11

But even though we are looking towards the future, at Ryan, our foundations are deep-rooted. We stay true to our traditions while adapting to the pace of progress. Prayers have always been a strong moral foundation. My family and I trust in the mighty Lord and always believe in the power of the Lord's Prayer to guide us.

“Even when the winds of time have blown hot and cold, they have not been enough to ruffle our vision and dream. If anything, we have only gone on to become stronger. “

GRACE PINTO

MANAGING DIRECTOR

AS A MOTHER

I SHARE YOUR DREAMS

A mother's support is invaluable. When my children were too shy to go on stage, they needed their mother's encouragement. Allowing our children to realise their own potential, to be confident, independent and empathetic, that is what every mother strives for. At Ryan International School, we understand that education is not just what's in the textbook, it is a journey of self-discovery. As a parent, our child's future causes us much anxiety. It is this very anxiety that motivated me, as a parent of three, to create the best educational environment for all Ryan students.

Today, when I see my children well settled, I can fully appreciate the importance of quality education and a holistic, nurturing environment. All three of my children, Snehal, Sonal and Ryan grew into the confident young adults that they are today, thanks to the world class quality of pedagogy and infrastructure at Ryan International School.

Be strong and courageous. Do not be afraid; do not be discouraged, for the LORD your God will be with you wherever you go.

Joshua 1:9

I believe in the exchange of ideas. Debating, public speaking and interacting with well renowned individuals is very important. Our children should have role models to look up to from the fields of science, sports, art and technology. They should be inspired to shine on the world stage. Today, I am a grandmother and I look towards our future generation with a positive heart. A successful future requires a strong moral foundation and the bond of family. These values are of utmost importance in rapidly urbanising India. I believe in Lord Jesus and the power of the Lord's Prayer to guide our children into a brighter future.

EDUCATING STUDENTS FOR
SUCCESS IN
A CHANGING
WORLD

37 years ago, when my parents started Ryan School, they had the foresight to understand the challenges of the changing millennium. It is from them that I draw inspiration when looking ahead at the years to come. Planning for the future is essential in any educational institute. When you bring your children to Ryan School, we understand that we have to prepare them for the year 2030. The world will be a very different place in 15 years. Just 17 years ago we had no Internet or mobile phones and today, in less than 2 decades, every profession has changed by these technologies. Similarly, our next generation will enter a world with completely new kinds of jobs, opportunities and attitudes.

Ryan School is fully prepared to take on these new challenges and prepare your child for a successful future. Ryan Schools are one of the few institutions that have started bringing electronic tablets into the classroom. Here, I personally oversee technology integration into the curriculum.

"You are my hope; O Lord God, You are my confidence from my youth."

Psalm 71:5

My vision for each Ryanite is to have a modern approach to thinking while still being rooted to family values. My own parents have always been a guiding factor in my life. Similarly, I wish for every Ryan student to believe in the values of family that have been passed on for centuries, while embracing the future through a strong foundation.

1 EXPERIENCE

FORTY YEARS

OF BRINGING EXCELLENCE TO STUDENTS

OUR VISION

is to be a premier global educational institution that cultivates academic, physical, psychological and social well-being through our motto Excellence in Education and All Round Development.

OUR MISSION

is to facilitate the development of global citizens – individuals with self-confidence who are able to contribute to community life, build tolerance and deal with emotional quotients.

At Ryan Schools, our experience with education spans over four decades. Over the years, we have developed an excellent road map to build a cohesive education system. 40 years ago, Ryan School was established by a group of trustees represented by members of the Christian community. The focus was to set up schools of international standards, towards the promotion of quality education and high moral values. All our schools therefore enjoy minority status as included in the constitutional rights, under Article 30 of the constitution of India. At Ryan, we constantly strive to encourage diversity at our schools. Students of all communities are welcome into the Ryan Family and this provides a great learning environment for our children. Ryan Schools' dedication to learning is reflected in the world class quality of our teachers and alumni. Today, our achievements are recognized internationally as well. We have established close ties with institutions across the globe.

Our vast reach has enabled us to understand the changing dynamics of education in society and plan for the future. In the coming years, we will offer Higher education courses such as Engineering, Medicine and Management. This shall enable us to start our own university offering different streams of study, within a variety of disciplines and vocations. The excellent Management team at Ryan has gathered years of dedicated experience in the field of education. Today, the Group Management has evolved into a cohesive and well knit network of academicians, researchers and professionals. For our past success and future endeavors, we owe our eternal gratitude to the Almighty God. More than ever, we thank you, our parents, for putting your trust in our capable hands.

2 WORLD CLASS PEDAGOGY

ENCOURAGE TO EXPLORE

BY OUR TEACHERS

Ryan Schools attract dedicated faculty who are skilled at making students feel safe, accepted, and capable. Our well qualified, highly trained teaching staff of 12000 brings diverse talent and enthusiasm for teaching into every classroom. Ryan faculty have outstanding credentials in their fields of expertise. We invite not only the most qualified and best teachers, but also individuals that understand and embrace our vision and institutional commitments.

Ryan schools have a long history of challenging itself to strengthen the delivery of its curriculum by adopting best practices. All Ryan teachers go through various orientation programs organised by the management. The basic 5 qualities that we aim to develop in a teacher are: 'Vision, Passion, Integrity, Connectivity and Intelligence'. More than 150 teachers from the Ryan International Group have successfully completed an online course on Multiple Intelligences, offered by WIDE World, developed at the Harvard Graduate School

of Education, the USA, out of which few of the successful teachers were nominated for the coach development program for coaching WIDE World courses.

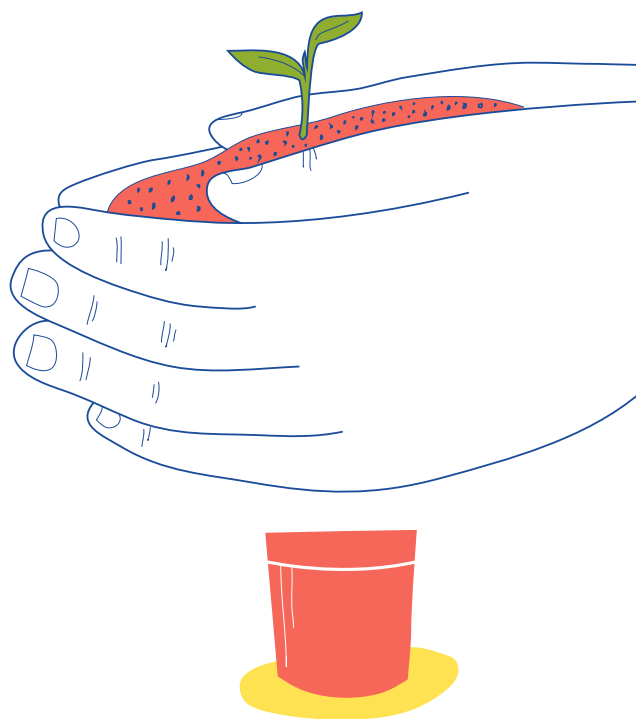

Ryan teachers show dedication to world class instruction and commitment to fostering great learning in every classroom, for every student, every day. Our teachers are part of what is uniquely RYAN— they aspire to be forever memorable as life-defining mentors in our students' academic, extra-curricular, and social development.

MONTESSORI SCHOOL

NURTURES WITH SIX SKILLS

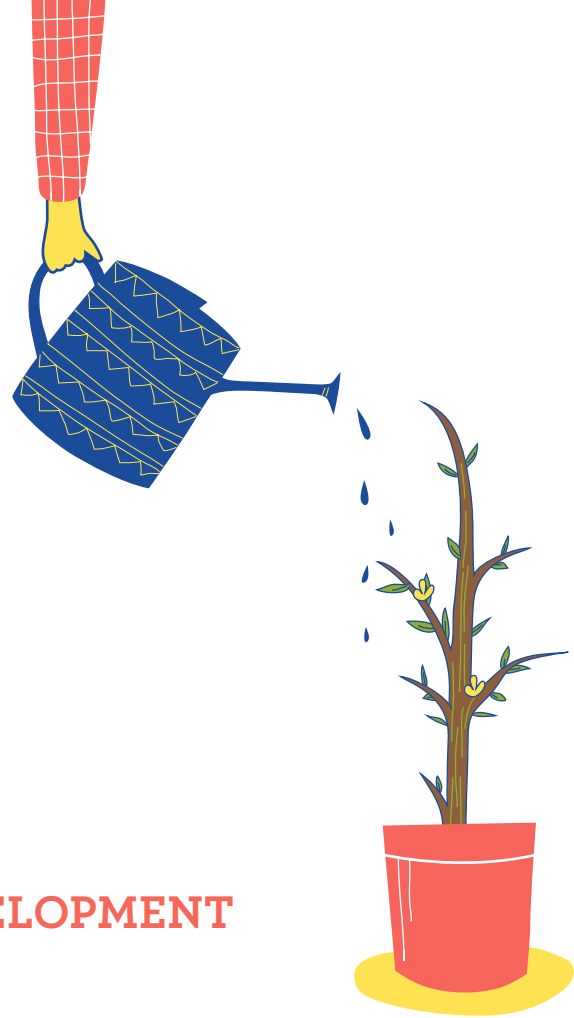

In the first school years, a child is but a young, tender seed. At Ryan, we take care to plant the seed carefully, water it and nurture the delicate sapling into a strong and majestic tree. Our early childhood school works with six key skills to build a strong foundation for future success. Independence and Self Confidence are achieved through a variety of joyful activities like Show And Tell, Fancy Dress, Role Play, Telephonic Skills, Dancing, Singing and Recitation.

At Ryan, we focus on a holistic approach and a playful environment. Here, play is a part of teaching, with students involved in theatre and puppetry as well as various sports activities for hand-eye coordination. We also play educational and memory games with students such as sorting objects of the same size, colour and shape. These activities help develop Problem Solving, Logical Thinking, Decision Making and Concentration in the child. Thus, at Ryan we believe that early childhood school is the foundation for a successful life. Primary School is where we prepare the soil for a tree. Here we make the soil healthy and nurture it, preparing for the growth of a healthy, young sapling.

*Our teachers always
motivate us to pursue
our passions.
Discussions and
debates at school is
my favourite activity.*

Arti Ghosh
Grade 7

2 WORLD CLASS PEDAGOGY

PRIMARY SCHOOL

ACADEMIC & EMOTIONAL DEVELOPMENT

Primary School is the foundation for a strong future. If early childhood is the nurturing soil, primary school is where the sapling is tended with water and sunlight on its journey to grow into a strong plant. This is the stage where the foundations of learning are laid. At Ryan, we take pride in adopting the challenging, yet rewarding task of fostering confidence, curiosity and creativity in a child. Our primary students are encouraged to develop intellectual, social, and emotional skills. We guide our students to break boundaries and develop sound judgement, while preparing them to achieve high academic standards.

Apart from the daily core subjects in language, mathematics, science and social studies, Ryan offers classes in art, music, world languages, physical education and technology. Soft skills are another important focus in these early years. Students gain fluency in writing, presentation, debate and discussion. At Ryan we believe that education should not be confined to the four walls of a classroom. Hands-on learning outside the classroom through field trips, expeditions and community service open a window to the outside world and inspire students to lead more fulfilled lives. Moreover, we recognise the importance of friendship and group activity. Cooperative activity is one of the essential forms of engagement and learning from peers is highly encouraged. Thus, in primary school, we strive to foster the development of skills that contribute to students' personal and academic success for a brighter future.

SENIOR SCHOOL

SHAPING LEADERS

Our Senior School builds on the strong foundation from the early childhood and middle school years. When equipped with a strong foundation, a carefully nurtured tree can finally yield the best fruits. Senior school allows our students the opportunity to grow into confident global citizens, while they pursue their dreams through academic and extracurricular achievements.

At Ryan, we believe in education beyond academic knowledge. Learning is a journey of self discovery, towards the realization of individual abilities and passions. Ryan School gives students the opportunity to explore a wide variety of choices towards discovering who they want to be. Students participate in various international exchange programs and in house events like Indian Model United Nations, International Children's Festival and Scholars Cup. Regular vocational guidance and counseling is provided at schools to help students decide their future careers. We work very closely with parents and have regular Open Houses. Parents interact with teachers and are personally involved in the development of their child.

Ryan provides a warm and comforting environment where students are able to ease in to the rigors of serious academic competition. Our teachers provide a strong support system and years of encouraging experience. In these formative years, students develop their own unique identity, their sense of confidence and leadership qualities as they prepare to enter a global world.

Travelling and hosting international students was one of the best experiences of my school life. At Ryan's, we not only read about the world but experience it in real.

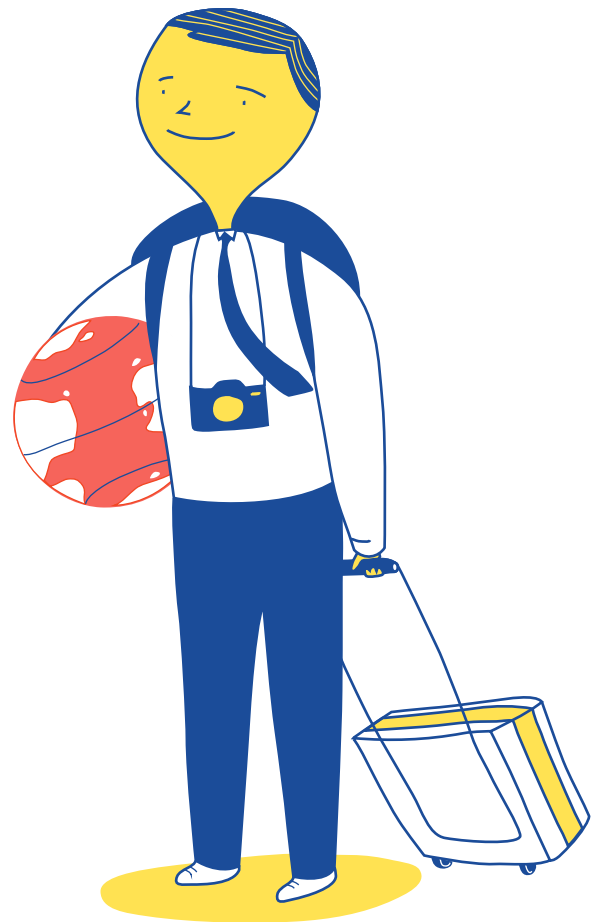

Nihal Gupta
Grade 12

3 INTERNATIONAL AFFILIATIONS

GATE TO THE WORLD

At Ryan, structured academic and cultural exchange programs involve both students and teachers and are part of the learning process. Ryanites travel to various student exchange programs across the globe. The Ryan International Group has successfully partnered with U.K. schools through the UK India Education and Research Initiative (UKIERI) which aims to substantially improve educational links between India and the UK. Most of our schools have been awarded the prestigious British Council International School Award (ISA) for achieving exemplary international standards. We make great efforts to encourage our students to travel the world and be updated with world views. We believe that understanding culture is an integral part of individual development as well as an important factor in the collective evolution of human society.

ACADEMIC & CULTURAL EVENTS

Ryan organises numerous cultural events, such as the renowned International Children's Festival, to grow social and emotional competence in students, through joyful interaction. Our academic events include the prestigious INMUN, featuring International Ambassadors as guest speakers. The objective is to raise student interest in world affairs, history, geography, public speaking and diplomatic skills so they can experience first hand the subjects that they read about in text books. We host Dramatic Clubs, School Parliament, Debating Society, MUN Clubs, Dancing and Singing classes, Science Exhibitions, Annual and Graduation Days and Inter-school Competitions, giving each child every opportunity to be a leader in the future.

5 EXCELLENT SPORTS ENVIRONMENT

BODY MIND SPIRIT

A healthy mind can only reside in a healthy body. This is an idea that we strongly believe in.

At Ryan we place great emphasis on sports and physical activities. Our schools provide world class facilities for Football, Handball, Cricket, Badminton, Volleyball, Skating, Hockey and Tennis. Many of our schools also provide top-notch Swimming Pools. Our students have won awards in several International, National and State level sports competitions organised in India and abroad. Some of our students have even gone on to become professional sports persons. To our credit - Ryan has organised the Largest Track & Field events in India certified by the Limca Book of Records, where 29,100 participants from 245 Institutions participated. Additionally, we are known for organising the biggest Shito-Ryu Karate Demonstration in the World at Wright Town Stadium, Jabalpur.

As an institution, our vision is to provide sports training to the young generation, to ensure maximum participation and substantial victory in future National and International Sporting Events, including the Olympic Games. With this in mind, we encourage each and every child to participate in sporting activities, with special emphasis placed on developing sporting interest in girl students. We also understand that each child has a unique ability and liking for a particular sport. This is why we encourage each child to find their own niche towards realizing their passion. Ensuring the physical health of our students, produces better academic and emotional results with more holistic individuals, who are prepared to face the world confidently.

6 VOCATIONAL TRAINING

YOUNG JOURNALISTS

In 2000, Ryan was the first school in India to introduce the concept of 'Education Through Lens'. In the year 2002, the Limca Book of Records certified Ryan as the first group of schools in India to have its own state-of-the-art, in-house broadcasting station, within the school premises. Earlier in 2000, they also certified "Chikki - Dream of a child" as India's first film to be shot by 26 students. Ryan has always been a pioneer in establishing the importance of vocational courses, especially Mass Communication.

We have RYAN TV - A MEDIA INITIATIVE by Ryan Management. Our one of a kind course, Beyond Breaking News (BBN), is telecast on prominent TV channels such as Sahara One and Topper. Ryan TV offers Certificate courses in journalism at Mumbai and Bangalore, as well as courses in Advertising, Short Film-making and Script Writing amongst others.

Students from across India attend these courses. We also host the Ryan IAFA awards to encourage young ad filmmakers. They make One Minute Films in diverse categories and the best films are awarded by us. This is a great hands on experience for students who want to begin a career in TV Journalism, Film-making and Advertising. Additionally, this is also a great activity for students to build self confidence, especially when they are meeting and interviewing eminent people from various walks of life.

7 SOCIAL INITIATIVE

CARE FOR OTHERS

At Ryan we believe in the spirit of equality, empathy, tolerance and care for others. It is very important for students in India to be exposed to different cultures and societies, to experience other realities, in order to raise awareness and empathy. These social skills will be very important towards shaping the future of modern India. Ryan International Schools undertake various social projects, based on six parameters, to transform society in a positive way. These parameters are: **Compassion, Environment, Education, Health Care, Economic Empowerment and Local Leadership Development.** Ryan Foundation is a member of the Global Compact Society, India, participating in the United Nations Global Compact Society program. The objective of this program is to exchange experiences, network and work together to promote sustainable growth, towards encouraging good corporate citizenship.

INTERNATIONAL CURRICULUM

Students at Ryan Global Schools (RGS) enjoy learner-centered teaching, with an inquiry-based trans-disciplinary curriculum model. This means that teaching and learning are designed around what children need, and how they learn best. This stands in contrast to traditional schools. Our schools ensure that students are not just memorising key facts. Instead, students are interested in exploring vastly more important questions, such as, 'Why does this matter?', 'How is this connected to other ideas?' and 'What can we do with this knowledge?'

INTERNATIONAL BACCALAUREATE PRIMARY YEARS PROGRAMME (IBPYP)

A characteristic feature of the IB PYP at RGS is that every student is encouraged to take ownership of his/her own learning journey, enhancing their curiosity to scaffold their understanding and build on knowledge. Students are certified by the IBO at the end of the IB PYP journey.

Cambridge International School

INTERNATIONAL GENERAL CERTIFICATE FOR SECONDARY EDUCATION (IGCSE)

Stepping up the ladder to the secondary years is the IGCSE offered by Cambridge Assessment International Education. Every learner is encouraged to engage with a variety of subjects and make connections between them, which is fundamental to the RGS pedagogical approach.
