## DELIVERING EDUCATION

The Bharat Ram Global School (BRGS) is built on a sound understanding of the desired attributes of a high quality school of the future. Our mission is to fulfill every child's need for a quality education. BRGS aims to implement the following core principles of education :

- Child-centered learning approach.
- Practical experience to promote true understanding.
- Holistic development of mind & body.
- Empowering teachers through training, inspirational leadership & better rewards.
- Applying learning to real-life situations and the society/community as a whole.

We believe in inspiring and empowering our children to be life-long learners. We follow globally recognized best practices and have provided all our children with new-age learning tools to groom them for their exposure to computers later at the Primary level.

The BRGS curriculum is wide and varied, encompassing the development of mind and body which enables our children to achieve their personal and academic milestones.

### REALITY **INSPIRED BY** **A PHENOMENAL** **LEGACY**

An initiative of the Shri Ram Education Trust, Bharat Ram Global School (BRGS) carries forward the century-old Shri Ram legacy of excellence in education. It shares its foundational principles with those of reputed institutions such as Shri Ram College of Commerce (SRCC) and Lady Shri Ram College (LSR).

The inspiration behind BRGS is the late Dr Bharat Ram, renowned industrialist and author, also the son of the late Lala Shri Ram, the founder of the Shri Ram Group. Apart from being a doyen of business & industry, he was an astute patron of quality education.

## VISION

Our vision is that children leave school with:  
a set of moral values - honesty, integrity, good judgement, tolerance and respect for others; a host of basic skills - linguistic, mathematical, scientific, artistic, physical and social; curiosity and desire for knowledge, strong self-esteem and high ambition.

## MISSION

We endeavour to foster humanitarian values integrated with a global mindset, aimed at creating citizens of the world. As a brand, we provide affordability and authenticity in child-centered practices.

## PHILOSOPHY

Our philosophy of education is based on the premise that each person finds identity, meaning and purpose in life through connections with society, nature and to spiritual values such as compassion and peace. It aims to bring forth an intrinsic reverence for life and a passionate love for learning.

We believe learning must be practical and linked to the stages of development of a child's mind. Our pedagogy is carefully crafted to develop and nurture young minds that enjoy the challenges of enquiry, knowledge and experimentation.

Our skilled and experienced faculty gently stimulate a child's innate potential and provide the guidance that helps develop a child's keen interests and sharp intellect.
