ABOUT SCHOOL

At KIIT, education is a journey to kindle imagination by creating enriching learning experiences in a child friendly, safe and nurturing environment. We believe that learning can be pleasurable when it is based on sensory experiences that encourage a learner to explore, innovate and create. Through our methodology-play, learn and discover we build a stimulating environment that creates multifold opportunities to hone their innate talent and foster social, emotional, psycho-motor and ethical skills.

Today we need a curriculum, which has global and multicultural dynamism and can foster our core values at the same time, focusing on character education. We believe that traipsing around in the woods for a day can bring a child to closer nature than studying books for a year. Hence KIIT brings a naturalized ambience where a child naturally learn through exploration, playing and experimenting, reads and brings fantasies to life.

KIIT Legacy

Vidyapati Sansthan, established in 1965 is a synergy of dreams, ideas and creativity of Sh Baldevraj & Late Shrimati Satya Kamrah. Late Sh. Krishna Menon, then Defense Minister laid the foundation of New State Academy, their first venture in Punjabi Bagh, Delhi. The founder Principal, Mrs. Satya Kamrah and Chairman, Dr. Jainendra Kumar, the philosopher, a thinker and world famous Hindi litterateur laid the foundation of New State Academy, Pitampura, now known as KIIT World School, which soon went on to become a name to reckon with in the domain of excellence in education and co-curricular areas. The vision of bringing paradigm shift in quality education was further strengthened with setting up of a conglomerate of a premier group of self financed institutes, imparting higher education in Computer Science, Information Technology and different branches of Engineering and Management. Setup in pristine location of Aravallis hills, KIIT College of Engineering, Management College and KIIT College of Education are now well renowned for generating assertive and competent industry savvy professionals who are creating their own success stories.

RANKED **5th** IN HARYANA

Now our latest endeavours are KIIT World School, Junior at Sector 46 and KIIT World School, Sohna Road near Maruti Kunj have already become the hub of modern education with its grassroots firmly embedded in soil replete with sanskaras and ethics. We are on our mission to create a bandwagon of tenacious Global Changemakers who will make their country proud by contributing to make a sustainable society.

VISION

CREATING GLOBAL CITIZENS WITH INDIAN ETHOS

We have a vision of creating a community of connected, confident, Indian global citizens. Our goal is to motivate children to learn "how to learn" with passion and curiosity. We want students to gain an impetus for lifelong learning and become educated and informed leaders of the future who will collaborate, work and create to improve the quality of life.

LEARNING STUDIOS

DISCOVERY STUDIO :

- Sensory, Kinaesthetic Games and puzzles to encourage play based exploration.
- Socio-Dramatic enforcement of civic and social skills with different role plays for strong foundation.
- Develop scientific and inquiry based budding minds
- Develop Coordination and Motor skills with Tactile and Heuristic Play.
- Audio-Visual aids and Projectors to foster listening skills and recapitulation of learning process.

The real voyage of discovery consists not in seeking new landscapes, but in having new eyes.

- Marcel Proust

FITNESS STUDIO :

- Treadmill
- Twister
- Cycling
- Stretching
- Skipping
- Jumping
- Hopping
- Yoga & Meditation

*Take care of your body,
it's the only place you
have to live in*

- Jim Rohn

FUN STUDIO :

- Out Door Play
- Fun Filled activities
- Safe and secure swings and rides
- Splash Pool
- Sand-Pit
- Ball Pool

*When you have confidence
you can have lot of fun,
when you have fun you
can do amazing things.*

- Joe Namath

LEARNING STUDIOS

MELODY STUDIO :

- Well trained teachers
- Musical Equipments

I don't sing because I'm happy, I'm happy because I sing.

- William James

”

ROCK 'N' ROLL STUDIO :

Dancing can be truly said as shortcut to Happiness.

- Trainers for different Dance Forms like, Jazz, Salsa, Bollywood, Freestyle, Contemporary, Ballet.

Dance is the hidden language of the soul.

- Martha Graham

”

DESIGN STUDIO :

- Colouring
- Origami
- Paper folding
- Clay Modelling
- Exploring different art forms

Creativity is inventing, experimenting, growing, taking risk, breaking rules, making mistakes and having fun

- Joe Namath

”

WOODS STUDIO :

- Mini indoor Jungle
- Lush green sprawling play area
- Veggie garden
- Kids explore self-gardening and plant life cycle

The Sun challenges us to Shine, the Clouds remind us to Move, the birds tell us, We too can Fly and the sky tells us that there is no limit to our Dreams and Goals.

”

OUR TEAM

MESSAGE FROM CHAIRMAN

It gives me an immense pleasure to bring forth a new chapter of KIIT World School, Gurgaon, the fruit of labour, devotion and commitment.

Young children are like saplings who need the right nurturing from the beginning. At KIIT, we believe in fostering the young minds with appropriate sunshine of intellect, continuous stream of fruitful learning and an air of high-quality mentoring.

A school is where children are nurtured, reared and shaped in such a manner that their mental abilities are enhanced and aptitudes channelized. Their power of the senses and skills are developed and strengthened to make them well rounded personalities. Therefore, the onerous task of moulding a child's values, personality and attitude lies greatly on the shoulders of the school so that the children who pass out from the school are knowledgeable, confident and masters of their own destinies.

As India strides to take its rightful place in the new world order, our sincere effort should be to equip the young generation to keep abreast of the changing and challenging educational demands. This will enable them to exploit the vast opportunities which are opening up in the globalized world.

I feel proud of the teaching and administrative staff of KIIT for rendering impeccable service in overall development of children. I am certain that the legacy of commitment will continue in KIIT World School, Gurgaon to enable young minds to rise to the challenges of the times with élan and build an empowered India.

SHRI B.R. KAMRAH

Wisdom is knowing what to do next, skill is knowing how to do it, and virtue is doing it.

- David Starr Jordan

OUR TEAM

MESSAGE FROM DIRECTOR

We are living in a dynamic and demanding world and Modern education professes the notion that we need transformation, not mere information. I believe that kids learn idiosyncratically so at KIT we follow developmentally appropriate practices that challenge individuals to learn and realize their true potential in every domain.

Every child is born with a potent natural impulse to investigate his surroundings hence our learning environment inspires children and teachers to become learners together, collaborate, explore and innovate to solve problems. Our teachers make sure that children feel safe and important and reach their individual developmental milestones in the right nurturing environment.

KIT World School at Gurgaon is a step-ahead to realize our vision of creating a community of Global Citizens with Indian ethos. We aim to equip our students with global competencies by giving them world-class facilities and exposure through collaborative projects with children beyond borders, thus empowering and emboldening them to meet the challenges of the world head-on.

DR. SANGEETA BHATIA

Our value-based curriculum ensures that while they soar in the vast sky of success, their roots are deeply embedded in their culture and traditions.

Don't limit a child to your own learning for he is born in another time.

- Rabindra Nath Tagore

OUR INITIATIVES

NURTURE NATURE:

We have created naturalized outdoor learning environment by adding trees, shrubs, bushes, hedges, perennial and flowering plants, climbers and edible plants which a child would love to nurture and play around. In addition every class has its own Nature-corner which the learners can design, experiment and explore the way they like.

FITNESS FIRST :

We believe that health is the only true wealth so inculcating right eating habits and an exercise regime at an early age is crucial. How you start your day, what, how much and when do you eat, how much time you spend in front of screen and in outdoor play, do you exercise your mind as well? Our program ensures each child finds the right answer that is unique to him.

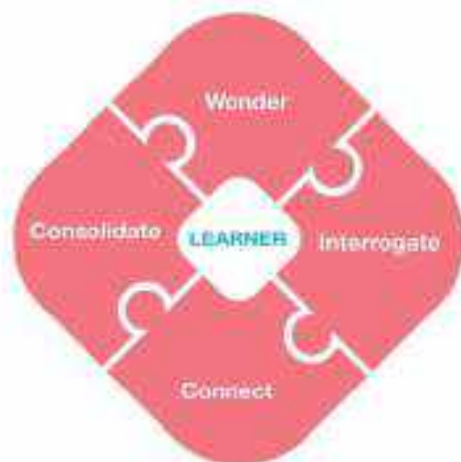

ROOTS TO WINGS:

Our values and ethos are important to us but at the same time we want the world to be the canvas for our learners to play on. Our uniquely designed program connects them to their roots as they learn Indian Folk Arts, Dance forms, Music and amazing Panchatantra tales. The collaborative activities with schools across the globe make them Global learners.

iCARE:

It is important that the learners from the very young age feel connected to their social milieu. Thinking and caring for someone makes a child a responsible individual. Sharing resources like old story-books and stationery with underprivileged, donating clothes and blankets to poor, initiating a plantation drive to do their bit for environment, makes the learners empathetic and sensitive to the needs of others. This is a child's way to tell the world that, "iCare".

CURRICULUM & APPROACH

OUR APPROACH

Our comprehensive programs provide a strong curriculum in a safe, stimulating environment to create meaningful experiences for your child every day. The student is in the centre of the learning process. The teacher acts as the facilitator and assists the learner through the process which is defined as follows:

EXPLORE: Learning begins by developing curiosity in the learners about the concept.

EXPERIENCE: Learning experiences are given so that they make discoveries independently or as members of a group.

EXPRESS: Facilitator connects the learners to the topic by explaining, discussing and helping the learners reflect on the topic.

RE-INFORCE: The concept is further consolidated by giving various written assignments, research work and worksheets.

The learning cycle thereby encourages various skills such as

CRITICAL THINKING

CREATIVE THINKING

PROBLEM SOLVING

RESEARCH SKILLS

PROGRAMS

THE LEARNING PATHWAY

PRE-
NURSERY

NURSERY

KINDERGARTEN

PRIMARY

PRESCHOOL: DIVERS

Preschoolers love to explore the world through their own hands. Our classrooms provide an environment that challenges them to understand, motivates them to respond, and offers constant encouragement and appreciation. The curriculum nurtures not only the essential skills but facilitates community learning, the child learns to express and become confident.

Our well designed activities ensure the learner develops essential foundation skills

PRE-READING SKILLS

PRE-MATH SKILLS

PRE-WRITING SKILLS

SOCIAL SKILLS SUCH AS
FOCUSING AND COLLABORATING

FINE AND GROSS
MOTOR COORDINATION SKILLS

PROGRAMS

NURSERY: VOYAGERS

Our Nursery is designed to help the child become a responsive learner who can communicate more successfully, and work well both independently and in group situations. The curriculum focuses on active listening, problem-solving, and language usage as well as social and collaborative skills.

The experiences are designed to focus on development of following skills

Reading (eg- matching letters to sounds, recognition of familiar words)

Physical skills with complex or combined movements (jumping rope, climbing)

Numeracy (eg- sorting and classifying objects, counting, addition)

Social skills (eg- working together, showing respect, greeting everyone)

Writing (eg- alphabets and numbers)

KINDERGARTEN: EXPLORERS

Kindergarteners are curious minds, they love to experiment. Our classrooms are designed as Explorer's labs where a child enjoys discovering the world through enquiry. Project based approach ensures child's experiences lead to concept building with a focus on communication, collaboration and a scope for reflection. Our curriculum is planned in a way that the learner naturally develops the essential critical skills like following multi-step instructions, organizing work, managing impulses, sustaining attention and finding multiple ways to solve problems.

Kindergarten focuses on:

Reading and writing common sight words, 3-4 letter words and blends

Comprehending stories and informational texts

Adding and subtracting

Counting up and back, and by 2's, 5's, and 10's

Word building

Writing sentences and ideas

PRIMARY SCHOOL

Our primary school curriculum is planned as an extension of pre primary, focusing on all the developmental domains. The holistic curriculum includes an eclectic blend that mixes learning and play, all carefully orchestrated for inspiring the kids to enjoy and learn, expand their horizons and improve their imaginations and creativity. It is Trans-disciplinary, thus helping students to correlate the learning with the real world scenarios. The objective is to inculcate self-study skills within the students, an essential element for success in middle and high school.

MIDDLE SCHOOL

At KJIT, middle school is a transitional stage from comfort of childhood into adolescence during which they learn to take ownership of their identity, education, and community. The unique learning experiences and congenial environment at KJIT empowers them to find purpose, to exercise creativity, to take risks, to explore the depths of academics and extra-curricular opportunities. They learn to engage with peers and determine their own path through adolescence.

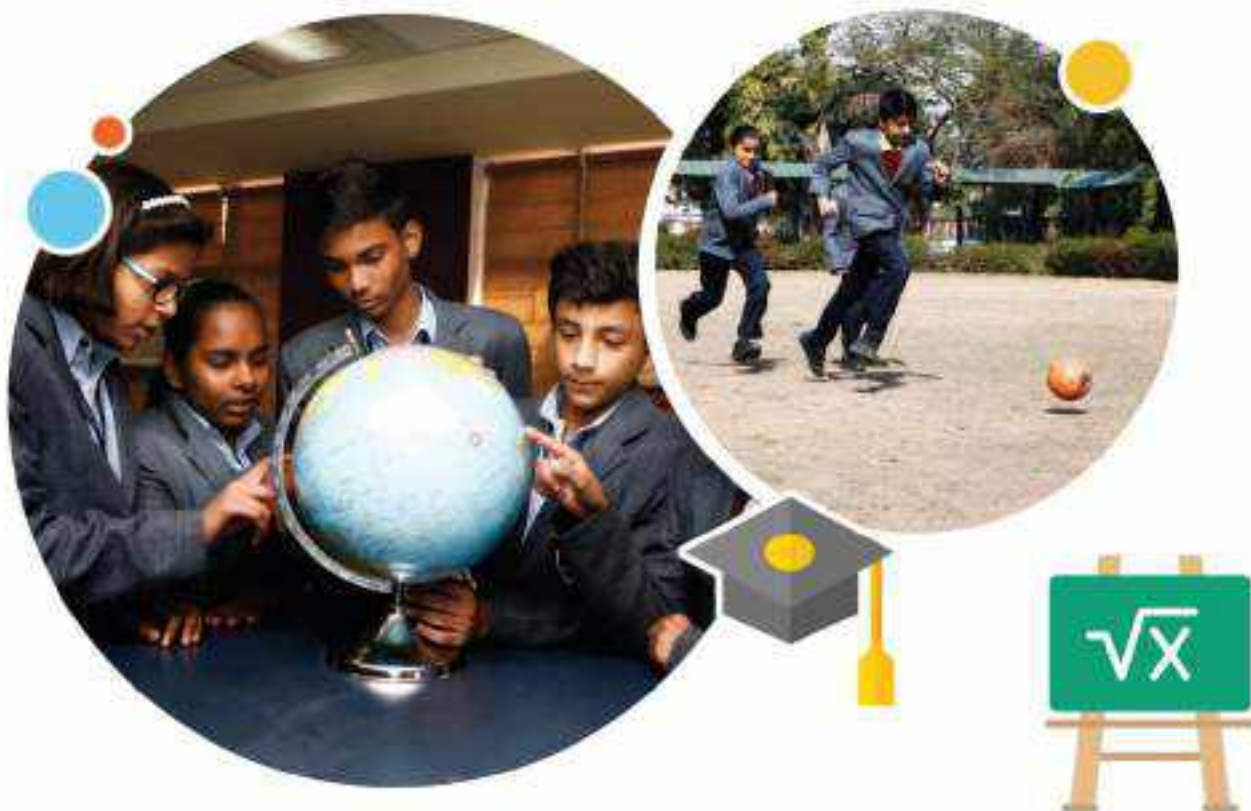

It is dedicated to providing its middle school students an academic curriculum replete with focus, rigor and purpose, creating a place where young adolescents can learn, contribute, and mature in a dynamic, complementary and stimulating environment.

SENIOR SCHOOL

Our senior school offers a broad and balanced curriculum through a wide array of academic subjects and a diverse set of opportunities available through our rigorous activity schedule as per C.B.S.E. Board.

The aim of teaching across the Senior School is to foster the love of learning by engaging pupils in their own learning process and ultimately help them develop as distinguished learners. We facilitate our pupils to be unabashedly curious, resourceful, earnest, confident, courageous, reflective, resilient and above all loaded with twenty first century core skills, which will help them excel in all areas.

Our teaching approach is completely student centric, allowing them full engagement through experiential learning and hands on approach. The balanced blend of formative and summative assessment helps them measure their learning at suitable intervals and adopt remediation tools if needed. Our teachers help each learner achieve their optimum potential.

OUR LABS

KIIT WORLD SCHOOL has well equipped laboratories for imparting practical knowledge in Science, Math, Computer and Languages. Students are encouraged to use these laboratories to learn through experiments.

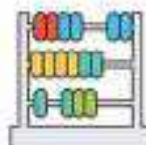

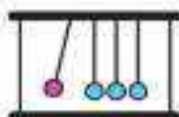

Science Lab

Science lab is a workplace for the scientific research. The aim of having separate labs of different science streams is to provide sufficient time, space and adequate equipment to each student to perform the experiments individually and to be familiarized with vast world of science. All the laboratories are well-stocked with instruments, specimens, chemicals, charts and models. We have well-qualified and experienced teachers to guide the students to explore and justify the concepts of science. In the lab, besides the experiments, the safety of child is equally emphasized.

It is a place where students can learn and explore various mathematical concepts and verify various mathematical facts and theorems using variety of activities and it is well equipped with necessary kits and tools like Algebraic expression Kit, Pythagoras Theorem Kit. It provides an opportunity to the students to understand and internalize the basic mathematical concepts through concrete objects and situations. It provides greater scope for individual participation in the process of learning and becoming autonomous learners.

Math Lab

OUR LABS

Computer Lab

KIIT has well-designed and air conditioned computer labs for students, run by a well-educated and qualified faculty, with one-on-one access, which means there is one computer for each child. Students learn to work on new innovative softwares.

We have invested in new "Teach Next!" software for further rise in teaching-learning-working at KIIT to technological standards. We have enough computers in our lab. We use our own LAN with latest WINDOWS for teaching-learning and presentations.

Learning a new language merely by studying the theory is not enough to guarantee a successful language learning experience. Language labs provide practice in an interactive way to master the four key language skills: listening, speaking, reading, and writing. The language lab is a very useful tool that facilitates classroom engagement and interaction via various resources, games and computer-based exercises to maximize language immersion.

Language Lab

Robotics Lab

Technology is critical to innovation, hence under the guidance of KIIT College of Engineering, we have created an advanced experimental facility to allow hands on learning through engaging with robotics tools, technology and material, in a supervised workshop environment.

FACILITIES :

Auditorium

An Auditorium with Green Room, Stage, Surround Sound, and seating capacity of 100 people, helps to bring out the latent talent of young kids.

Therapeutic Facility

A medical room with Trained Nurse has been appointed to take care of the children. Also the nannies have been trained for safety, care and first-aid of children.

Transport Facility

Transport facility will be available from all parts of Gurgaon.

Diner Facility

In-House Kitchen facility to provide children with sumptuous and healthy child friendly meals.

Other Facilities

Other Facilities include Loving & Caring Teachers, Play Way Teaching, Child Friendly Environment, Spacious Class Rooms, Safe and Secure Premises, Air Conditioned Building, Ergonomically designed Child Friendly Furniture, Smart Board, Computer in each class.
