

KIIT WORLD SCHOOL JUNIORS

Creating global Citizens with indian ethos

Don't tell me
the sky's the limit when there are
footprints on the moon

ABOUT SCHOOL

At KIIT, education is a journey to kindle imagination by creating enriching learning experiences in a child friendly, safe and nurturing environment. We believe that learning can be pleasurable when it is based on sensory experiences that encourage a learner to explore, innovate and create. Through our methodology- play, learn and discover we build a stimulating environment that creates multifold opportunities to hone their innate talent and foster social, emotional, psycho- motor and ethical skills.

Today we need a curriculum, which has global and multicultural dynamism and can foster our core values at the same time, focusing on character education. We believe that traipsing around in the woods for a day can bring a child to closer nature than studying books for a year. Hence KIIT brings a naturalized ambience where a child naturally learn through exploration, playing and experimenting, reads and brings fantasies to life.

KIIT Legacy

Vidyapati Sansthan, established in 1965 is a synergy of dreams, ideas and creativity of Sh Baldevraj & Late Shrimati Satya Kamrah. Late Sh. Krishna Menon, then Defense Minister laid the foundation of New State Academy, their first venture in Punjabi Bagh, Delhi. The founder Principal, Mrs. Satya Kamrah and Chairman, Dr. Jainendra Kumar, the philosopher, a thinker and world famous Hindi litterateur laid the foundation of New State Academy, Pitampura, now known as KIIT World School, which soon went on to become a name to reckon with in the domain of excellence in education and co-curricular areas. The vision of bringing paradigm shift in quality education was further strengthened with setting up of a conglomerate of a premier group of self financed institutes , imparting higher education in Computer Science, Information Technology and different branches of Engineering and Management. Setup in pristine location of Aravallis hills, KIIT College of Engineering, Management College and KIIT College of Education are now well renowned for generating assertive and competent industry savvy professionals who are creating their own success stories.

Ranked 5th in Haryana , KIIT, affiliated to Maharishi Dayanand University Rohtak and approved by AICTE and NCTE New Delhi, is a name synonymous to excellence in quality teaching with the best faculty, 100 % placement, excellent teaching methodologies and the best course curriculum made KIIT to come on the cover page of Business Sphere magazine edition August 2009.

Now our latest endeavor is nestled in Sector 46, Gurgaon is going to a hub of early modern education with its grassroots firmly embedded in the soil replete with sanskaras and morals. This junior wing will help us create a bandwagon of tenacious Global Changemakers who will make their country proud.

VISION

CREATING GLOBAL CITIZENS WITH INDIAN ETHOS

We have a vision of creating a community of connected, confident, Indian global citizens. Our goal is to motivate children to learn "how to learn" with passion and curiosity. We want students to gain an impetus for lifelong learning and become educated and informed leaders of the future who will collaborate, work and create to improve the quality of life.

OUR TEAM

MESSAGE FROM CHAIRMAN (SHRI B.R. KAMRAH)

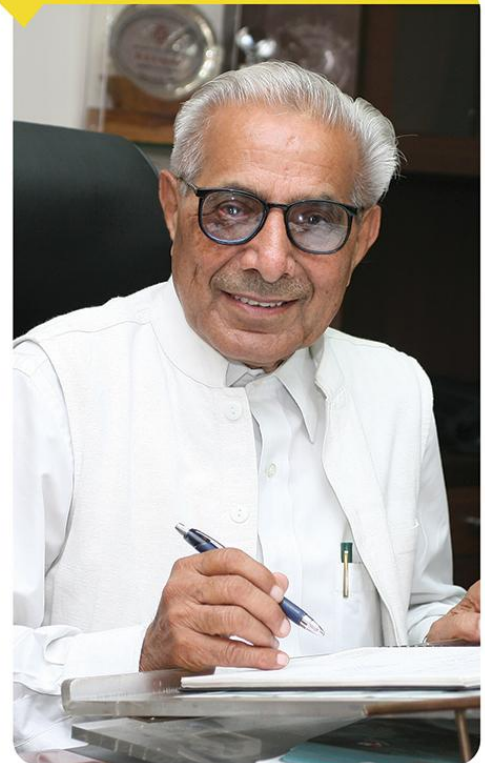

It gives me an immense pleasure to bring forth a new chapter of KIIT World School, Gurgaon, the fruit of labour, devotion and commitment.

Young children are like saplings who need the right nurturing from the beginning. At KIIT, we believe in fostering the young minds with appropriate sunshine of intellect, continuous stream of fruitful learning and an air of high quality mentoring.

A school is where children are nurtured, reared and shaped in such a manner that their mental abilities are enhanced and aptitudes channelized. Their power of the senses and skills are developed and strengthened to make them well rounded personalities. Therefore, the onerous task of moulding a child's values, personality and attitude lies greatly on the shoulders of the school so that the children who pass out from the school are knowledgeable, confident and masters of their own destinies.

As India strides to take its rightful place in the new world order, our sincere effort should be to equip the young generation to keep abreast of the changing and challenging educational demands. This will enable them to exploit the vast opportunities which are opening up in the globalized world.

I feel proud of the teaching and administrative staff of KIIT for rendering impeccable service in overall development of children. I am certain that the legacy of commitment will continue in KIIT World School, Gurgaon to enable young minds to rise to the challenges of the times with élan and build an empowered India.

Wisdom is knowing what to do next, skill is knowing how to do it, and virtue is doing it.

- David Starr Jordan

OUR TEAM

MESSAGE FROM DIRECTOR (DR. SANGEETA BHATIA)

We are living in a dynamic and demanding world and the famous line makes a powerful argument as it speaks to the notion that we need transformation, not mere information. I believe that kids learn idiosyncratically so at KIIT, we follow developmentally appropriate practices that challenge an individual to learn and realize their true potential in every domain. Every child is born with a potent natural impulse to investigate his surroundings hence our learning environment inspires children and teachers to become learners together, collaborate, explore and innovate to solve problems. Our teachers make sure our child feel safe and important and reach their individual developmental milestones in the right nurturing environment.

KIIT World School at Gurgaon is a step ahead to realize our vision of creating a community of Global Citizens with Indian ethos. We aim to equip our students with global competencies by giving them world- class facilities and exposure through collaborative projects with children beyond borders, thus empowering and emboldening them to meet the challenges of the world head-on.

MESSAGE FROM PRINCIPAL (MS. RASHMI SRIVASTAVA)

The quote by Albert Einstein is a thought provoking statement for all educators. Imagination is the gateway to all possibilities. While conceptualizing the school, we have made conscious efforts to design our curriculum in a way that encourages creativity, ingenuity, thinking freely and expressing it without any fear. Why is the dove that symbolizes peace always white? It can be pink or yellow, we don't have to stifle a child's imagination and feed with our preset notions always. We can let them paint the sky green, we don't feed them with information but let them explore, innovate and create their own solutions.

At KIIT, teachers and students are co-learners. We travel the world with them in air-balloons, live in chocolate houses, feed the bunny a carrot every morning, and learn why telling the truth always pays in the end- through our story books. We water the saplings and see them growing in our class-garden, we play in the sandpit and soil our hands, we sing folk songs and dance on jazz, we put up a market place and make great sale- through our Learning Studios. Together we make learning a great fun!

Don't limit a child to your own learning for he is born in another time.

- Rabindra Nath Tagore

PROGRAMS

THE LEARNING PATHWAY

PRESCHOOL: DIVERS

Preschoolers love to explore the world through their own hands. Our classrooms provide an environment that challenges them to understand, motivates them to respond, and offers constant encouragement and appreciation. The curriculum nurtures not only the essential skills but facilitates community learning, the child learns to express and become confident.

Our well designed activities ensure the learner develops essential foundation skills

PRE-READING SKILLS

PRE-MATH SKILLS

PRE-WRITING SKILLS

SOCIAL SKILLS, SUCH AS
FOCUSING AND COLLABORATING.

FINE AND GROSS
MOTOR COORDINATION SKILLS

PROGRAMS

NURSERY: VOYAGERS

Our Nursery is designed to help the child to become a responsive learner who can communicate more successfully, and work well both independently and in group situations. The curriculum focuses on active listening, problem-solving, and language usage as well as social and collaborative skills.

The experiences are designed to focus on development of following skills

Reading (eg- matching letters to sounds, recognition of familiar words)

Physical skills with complex or combined movements (jumping rope, climbing)

Numeracy (eg- sorting and classifying objects, counting, addition)

Social skills (eg- working together, showing respect, greeting everyone)

Writing (eg- alphabets and numbers)

KINDERGARTEN: EXPLORERS

Kindergarteners are curious minds, they love to experiment. Our classrooms are designed as Explorer's labs where a child enjoys discovering the world through enquiry. Project based approach ensures child's experiences lead to concept building with a focus on communication and collaboration and a scope for reflection. Our curriculum is planned in a way that the learner naturally develops the essential critical skills like following multi-step instructions, organizing work, managing impulses, sustaining attention and finding multiple ways to solve problems.

Kindergarten focuses on:

Reading and writing common sight words, 3-4 letter words and blends

Comprehending stories and informational texts

Adding and subtracting

Counting up and back, and by 2's, 5's, and 10's

Word building

Writing sentences and ideas
