BUT EVERY CHILD IS BORN

AWESOME

BECAUSE WHEN
WE HAVE MANY KINDS
OF CHILDREN,
WHY SHOULD THE

TEACHING METHODOLOGY

BE JUST ONE

AND NOT MANY?

THE CURRICULUM OF Love

A CULMINATION OF
ALL THE BEST TEACHING METHODS
IN THE WORLD.

1 TEACHING METHOD

REGGIO EMILIA

SOMETIMES,
THE GREATEST TEACHER IS THE

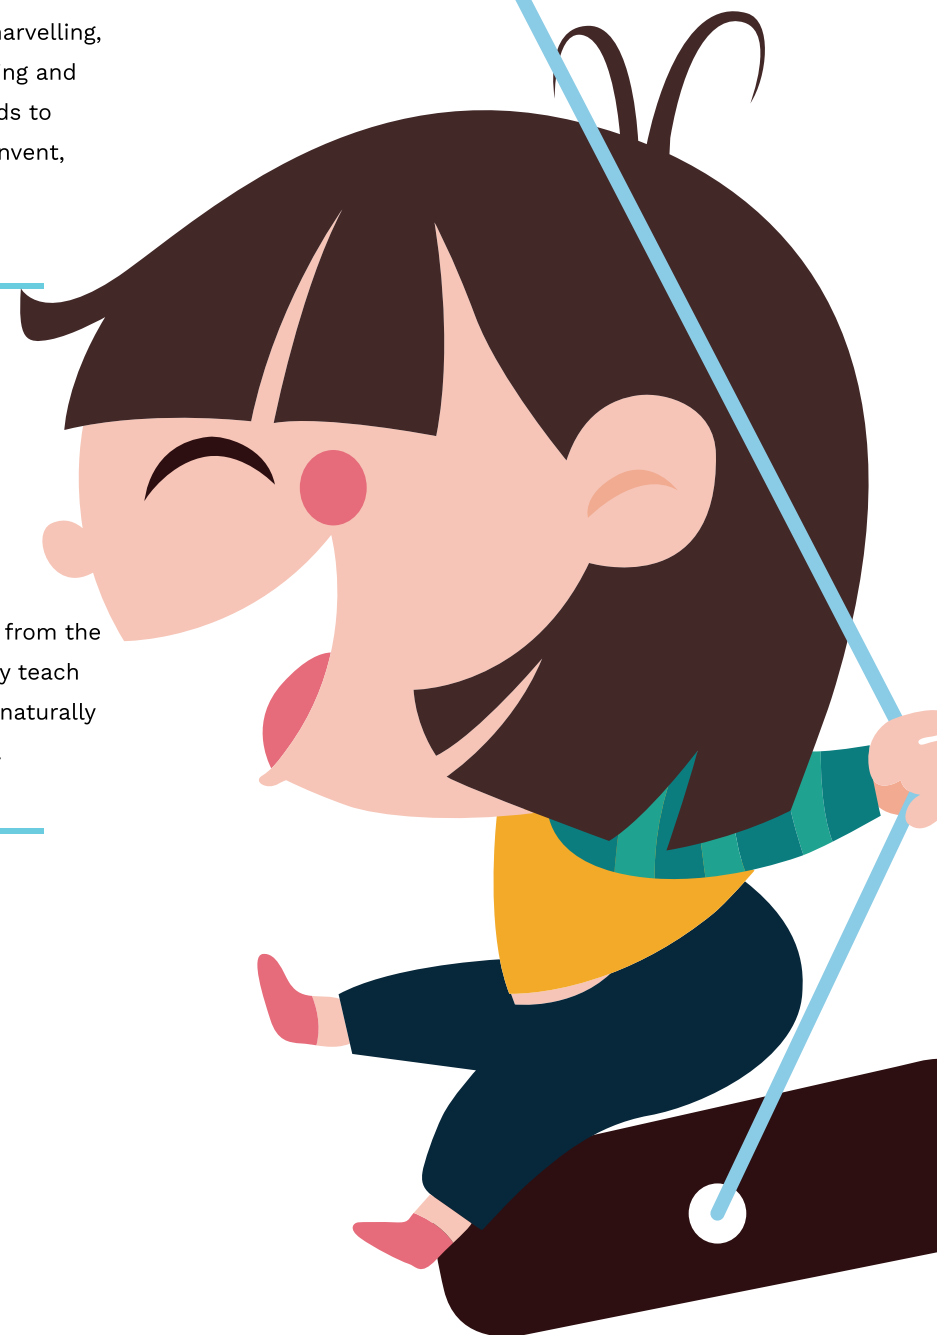

ENVIRONMENT.

AS LORIS MALAGUZZI SAID,
THE EDUCATOR FROM THE CITY OF
REGIO EMILIA,

“The child is made of one hundred.
The child has a hundred languages,
a hundred hands, a hundred thoughts.
A hundred ways of thinking, of playing,
of speaking. A hundred is always a
hundred ways of listening, of marvelling,
of loving a hundred joy for singing and
understanding. A hundred worlds to
discover, a hundred worlds to invent,
a hundred worlds to dream.”

All these hundreds often come from the
environment, when you not only teach
them but also expose them to naturally
available materials for learning.

2 TEACHING METHOD

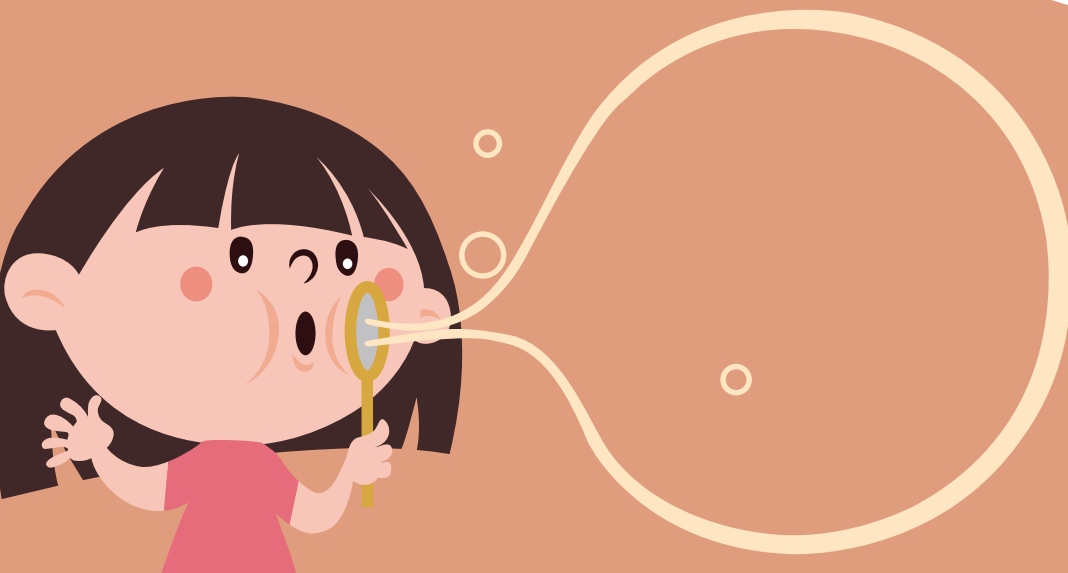

MONTESSORI

GIVE CHILDREN

FREEDOM,

TO EXPLORE.

LEARNING WILL HAPPEN BY THE WAY.

THE THREE-TIME NOBEL PEACE PRIZE
NOMINEE WAS THE BRAIN BEHIND
MONTESSORI EDUCATION PHILOSOPHY.

The three-time Nobel Peace prize
nominee was the brain behind Montessori
Education philosophy.

She once said, 'The hand is the
instrument of intelligence, and the
greatest gift we can give our children
are the roots of responsibility and the
wings of independence.'

Hence, we believe in freedom.
The freedom to help children learn
by themselves, while we are there
to support learning, through
various Montessori teaching aids
and equipments.

3 TEACHING METHOD

PLAY-BASED LEARNING

BECAUSE WHEN

CHILDREN

PLAY,

THEY LEARN TOO.

Every child is born curious, and it's our responsibility to nurture that curiosity. Through daily interactions and play, they explore the world, which leads to social, physical, emotional, and cognitive growth. Play serves as the ultimate teacher, so we ensure every child has ample opportunities to play indoors, outdoors, or at parks.

By observing their interests, we ignite their imagination and creativity. Whether it's dressing up, building blocks, singing, storytelling, or outdoor adventures, we seamlessly integrate play into everyday activities, inspire them to learn and explore joyfully.

4 TEACHING METHOD

EXPERIENTIAL LEARNING

LEARNING BY DOING IS

LEARNING

FOR LIFE.

Experiential learning means doing, thinking, and reflecting. It's all about learning by doing. Children start learning when they use their senses and reflect on what they've done. Then, they think, make meaning, and test their ideas. They learn from feedback and move on to the next experience."

REGGIO EMILIA

- Accepting 100 Forms of Expression

TIMELINE of EVOLUTION

THE CURRICULUM OF

Love

IS DESIGNED FOR THE EARLY
YEARS. BUT ITS LEARNING
REMAINS FOR LIFE. ”

SUDHA GUPTA

Chairperson Mother's Pride

In 1996, Love founded Mother's Pride.

Because I believe love is the only way to teach a child.

No child is the same, so why should the teaching method be?

Hence, to give every child a sound foundation for life,

we worked tirelessly to create a curriculum

that adapts to every child and brings out the best in them.

And, of course, by providing the most important thing: love.
