# GG INTERNATIONAL SCHOOL

— Bavdhan Campus —

स्वात्मानं बोध  
**The journey of self-discovery**

## Goel Ganga Foundation

With the objective of giving back to society, Goel Ganga Foundation (GGF) is committed to:

Providing high quality education to all strata of society. | Setting up and running spiritual centers. |  
Empowering cultural growth and conservation. | Working for the preservation of the environment. |  
Creating beauty, harmony and peace in the world.

## The Spirit of GGIS

### VISION

Empowering the architects of tomorrow

### MISSION

We aim to present enthusiastic learners with an inclusive environment that will ignite curiosity and lead them onto the path of self-discovery.

### MOTTO

Swatmanam Bodh:  
The journey of self-discovery

Dear Parent,

I am extremely excited to welcome all of you to the Bavdhan Campus of GG International School. This Campus is not only a new physical location of our school, it is the manifestation of everything we have learned in our 15 years of being in education.

Personally, my journey in education started from my experience as a sports nutritionist to the Jr. National Hockey Team of India. It was in those days that I realized that young people need to have a holistic view of life and that education is the way to do it.

Over the past 15 years, I have learnt from everyone – my students, my teachers, our parent community, even grandparents of our students.

And basis all that learning, we put our minds together to create our new Bavdhan Campus, which brings together the best platforms and resources to give our children the best of new education.

Our GGIS Bavdhan Campus is Pune's FIRST to be built on 4 powerful pillars:

1

The GGIS Sports Excellence Center -where students will be given sports education from how to nourish their bodies to how to keep their bodies and minds fit, to how to pursue various sports with a view to giving them viable options of a career in sports.

2

The GGIS Disruptive Platform- where students will be trained to be doers so that they can be change-makers and thought leaders.

3

The GGIS Vedic Values System- where students will be taught to understand and apply traditional knowledge and science to real life situations in the contemporary context.

4

The GGIS Skill Development Program- which focusses on the core skills of students and develops those skills so that many more worlds open up to them, in terms of choosing future paths.

There is a lot of excitement awaiting students in our new Campus.

And we are all looking forward to welcoming your child into this beautiful world of #NewEducation.

Warm regards,

Sonu Gupta  
Chief Mentor

## Proposed Facilities

ROBOTIC LAB

LIBRARY

CLASSROOM

VEDIC CENTER

DRAMATICS ROOM

ATAL LAB

MUSIC ROOM

## Proposed Facilities

### Laboratories:

Montessori lab  
Language labs  
Math lab  
Vocational training lab  
ATAL lab  
Composite lab  
Home Science lab  
IT lab  
History lab  
Geography lab  
Mass Media lab  
Robotics lab

### Holistic development facilities:

Peer learning zones  
Libraries  
Art room  
Meditation hall  
Tinkering area  
Western and Classical dance room  
Western and Instrumental Music rooms  
Drama Room  
Farming Arena  
Sculpture Center

### Additional features:

Amphitheatre  
Auditorium  
Sick bays  
Counselling center  
Career counselling center  
Daycare center

## GGIS Excellence Programs

This is a special initiative for students who wish to pursue excellence in specific fields. Our after school Excellence Programs will give students the opportunity to focus on their chosen field. These will be Day Boarding Programs where the students will be given all facilities required for spending the day on campus. We offer after school Excellence Programs in Dance, Theatre, Music and Sports.

## 4 Pillars

1

### The GGIS Sports Excellence Center

2

### The GGIS Disruptive Platform

3

### The GGIS Vedic Values System

4

### The GGIS Skill Development Program

India's New Education Policy is going to be a powerful force for positive change in education. And we, at GGIS Bavdhan, have created a structure that incorporates the spirit of New Education through our unique blend of Sports Excellence, Disruptive Platform, Vedic Values, and Skill Development.

Our objective is to create an ecosystem in which every child will find his or her space in the world, and occupy it confidently and graciously. In order to make this happen, we are focussing on value-based, holistic learning. The Sports Excellence Center develops a strong and healthy body, the Disruptive Platform creates independent thinkers, the Vedic Values System instills a sense of being grounded and the Skill Development Program polishes the individuality of the child.

When all 4 pillars are put together, it is easy to see how every child is given the best possible opportunity to become the best version of himself or herself.

We focus on strong basics so that students can embark on a lifelong journey of learning. We encourage children to apply knowledge, integrate concepts from various subjects. We create spaces for community learning, peer-to-peer learning. All of this so that our students become unique individuals, capable of choosing disruptive careers, and building a future based on the values they learn at GGIS.

## 1 The GGIS Sports Excellence Centre

The focus of this center is to create systems at grassroot development of all sports and to provide world class and premium quality training programs and facilities to our students.

With the aid of internationally acclaimed partner academies, coaches and psychologists, like FC Barcelona Academy, Gary Kirsten Cricket and Michael Phelps Swimming, our sports partner, ILESEUM has developed a robust curriculum across sports, designed to truly develop all aspects of growth on the field.

At the GGIS Sports Excellence Center our students will have access to a deep-dyed focus on the 4 quadrants of development - Physical, Tactical, Technical, and Behavioural. We will employ a holistic approach from the onset, aimed at achieving overall sporting excellence in our students, by creating recreational opportunities for youth to learn sports and develop their physical and mental fortitude with technical flair to facilitate a structure to nurture raw talent into their full potential as athletes.

Our training programs have been carefully crafted keeping in mind pre-primary, primary, and high school (secondary levels to enhance student learning with varied content to avoid monotonous repetition).

The programs are delivered by trained and certified coaches, with an interactive and activity-driven outlook to curriculum. We make customized plans for each session, which ensure pre-eminent tracking of the program objectives. Improvements in each child are tracked by using real time assessment monitoring on our highly acclaimed Sports training and development phone APP in partnership with Sportly. me Australia - a report card of such for Physical, Psychological and Skill based assessments.

1. The coaching team conduct training for participants across all levels and ages starting from 4 years and above.
2. Real time Progress Monitoring and attendance for each player during the program.
3. Bi- annual reports on student progress with personalized feedback on every player.
4. Parent-coach meetings once every quarter or as per school requirements to discuss the progress of the child.
5. Advanced coaching and Competitive participation for talented students.

 Basketball	 Taekwondo	 Badminton	 Lathi Kathi	 Archery	 Skating
 Cricket	 Football	 Volleyball	 Tennis	 Yoga	 Table Tennis
 Kho-Kho	 Kabaddi	 Athletics	 Cycling	 Handball	 Gymnastic
 Chess	<p>We will also offer an after school optional program which includes world leading international academies like Barca Academy for football, Gary Kirsten Cricket India for cricket, Peter Burwash International for tennis and Michael Phelps Swimming Academy with residential sports programs for advanced athletes choosing career paths as professional athletes.</p>				

## 2 The GGIS Disruptive Platform

1. Education that DISRUPTS the existing system in such a way that the process of learning becomes interesting, engaging, more fun and interactive.
2. This empowers students to pursue their passion as their profession.
3. This in turn makes education child-centric and potential or talent driven.
4. Outcome - Students would be able to pursue disruptive careers with the confidence that they will excel, no matter which field they choose.

## 3 The GGIS Vedic Values System

1. The whole world looks upon the Vedas as a font of wisdom.
2. Our Vedic Values System is all about giving our children the advantage of strong roots by teaching them the science and wisdom of our Vedic systems.
3. This inspires our students to lead a life of grounded thinking, which leads to elevated living.
4. This also empowers students to look within and find answers to unanswered questions – this is what our school motto 'Swatmanam Bodh' (the journey of self- discovery) is all about.

## 4 The GGIS Skill Development Program

1. Skill development is making oneself proficient in a particular art in which one has a natural inclination.
2. At GGIS, we understand that proficiency in a particular area – be it cooking or carpentry, music or martial arts – makes a person more confident and happier.
3. It is not necessary to make a career in martial arts, just because you are trained in it. But it is essential that our students are trained to develop their skills. To make them better, happier and more well-rounded people.
4. And that is the focus of our Skill Development Program – giving students opportunities to gain proficiency in their inherent skills; because they not only need it, they deserve it.

## About Us

Established in 2007, GG International School is an ISO Certified, co-educational Senior Secondary School and is ranked amongst the top 10 CBSE schools of Pune.

Our excellent track record of 100% results in class 10th and 12th for 9 consecutive years goes hand-in-hand with our winning teams in football, taekwondo, basketball, swimming and athletics, helping strengthen our belief that within each student lies an erudite soul and a sportsperson.

Founded under the aegis of the Goel Ganga Foundation, the school and foundation envision serving each stratum of society with quality education and aiding the development of society with its resource and expertise.

The foundation, along with the school, has taken up many community out reach projects such as adopting a tribal village, installing an advanced solar panel system in the school, creating a mini-forest in the school (Aaranya), etc.

Our Mahatma Gandhi Centre is a resource centre which gives each student a platform to explore their potential and work towards Swatmanan Bodh.

We believe in offering each child a pathway to success – spiritually, physically, academically and holistically.

The school has 2 branches – Pimpri and Bavdhan, with preschool centers at Chinchwad, Rahatani, Bavdhan and Pimpri: and a proposed IB school in Bavdhan.

## GGIS Atha

### Bavdhan

GGIS Atha,  
3rd Floor, Next to Ganga Legends County,  
Patil nagar, Bavdhan, Pune

**91722 63008**

**Total number of staff - 300+**  
**Total number of students - 5000+**

### Illustrious Alumni

◀ **Capt. Pirzada Zahoor Gul**

Batch: 2013

Degree - B.Arch

Presently posted to –  
Tezpur, Assam

◀ **Renuka Paltanwale**

Batch: 2016

Degree: Bachelor of  
Materials Science &  
Engineering

Current workplace and  
designation: Materials  
engineer at Andersen  
Corporation (R&D).

◀ **Devansh Manu**

Batch: 2015

Graduate from IIIT,  
Hyderabad

Software Engineer,  
American Express, UK

◀ **Shambhavi Sabahit**

Batch: 2019

Pursuing B.E Electronics and  
instrumentation  
from Birla Institute of  
Science and  
Technology(BITS),  
Hyderabad campus.

◀ **Maitri Taneja**

Batch: 2013

Engagement Marketing  
Associate, Wolken  
Software, Bengaluru

◀ **Shrushti Sharma**

Batch: 2018

Economics Major, Miranda  
House, University of Delhi

Next to Ganga Legends County, Patil nagar, Bavdhan, Pune - 411021.
