OPENING PATHS OF SELF DISCOVERY

MIND | BODY | SOUL

## About US

MITCON International School is a private, progressive, innovative, child centered, co-educational English medium school, committed to providing quality education to all the students. The school is affiliated with CBSE and offers Pre-primary, Primary and Secondary Education. The school strives to provide high quality education programs with an emphasis on creating learning environments that are innovative and enriching. MITCON International School aims at providing Global Education with Holistic Development at affordable fees.

### Holistic approach :

- **The Intellectual Dimension** : Fundamental learning, interdisciplinary projects to reconsider subjects, experimenting along with eagerness to learn, we cultivate **Global Intelligence**, one that connects the intelligence of reason with intelligence of the heart.
- **The Emotional and Affectionate Dimension** : Allows us to develop recognition of one's feelings along with developing effective ways and cultivate a positive environment for supporting self and others. We at MITCON International School nurture the Emotional Quotient of our students in order to make them compassionate.
- **The Physical Development Dimension** : It is primordial for a balanced development. Sports are seen as integral part of curriculum, in addition to vital nutrition and health consciousness stressed upon.
- **The Creative Dimension** : It represents the potential of imagination, creativity & innovation among the children. Art, music, miming games and ecological projects are carried out by the children to nurture the creativity skills.

**Joyful learning experience** : Joy and Pleasure are the most powerful driving forces behind learning. We offer inspiring pedagogical activities that engage children, create inquisitiveness towards learning without constraints or pressure & thus developing in them a zest to be lifelong learners.

## VISION

To be one of the leading K-12 (Kindergarten to Grade 12) school and opening path of **Self Discovery** for the children by creating a truly exceptional school which **inspires, empowers and enlightens** students and **enriches** the communities that we are part of.

## MISSION

To foster emergence of responsible, fulfilled Global Citizens & lifelong learners into the world, who are contributors to humanity's true evolution by providing highest quality of education; qualified, creative & competent staff along with comprehensive curriculum within a safe, innovative learning environment.

## OUR MOTTO - “Developing Global Citizens”

The 21st century has presented new opportunities & challenges which require a different approach to education. In fast-changing & inter dependent world, it is necessary for young people to acquire knowledge, skills, values & attitudes to adapt and to thrive. Their education should prepare them for living and working in a global society. This is why developing global citizens is a key learning context within the curriculum for excellence which is firmly embedded with the experiences & outcomes across all curriculum areas.

## Message from Managing Trustee

Dear Parents,

It is a pleasure to welcome you and your ward to MITCON International School. We wish you happiness & success in all aspects of your child's school life.

MITCON International School is promoted and established by MITCON Foundation, an educational trust which has earned a distinct reputation in field of higher and technical education in western India.

MITCON International School is committed to provide quality holistic education of international standards and equip all its students with knowledge & skills required to thrive in 21st century.

MITCON International School provides State of the Art Infrastructure to compliment efforts of our teaching staff and a safe and innovative learning environment for students to learn, explore, engage and acquire skills, knowledge and values to succeed as responsible global citizens.

We sincerely strive to leverage all possible opportunities to ensure that our students not only excel academically but also grow into good human beings. All stakeholders at MIS work towards making our students realize their fullest potential in every area of self-development, be it learning, values, culture or social responsibility. Bolstered by our past achievements and learning through two decades of experience we keep applying fresh ideas and innovations to our broad, well balanced and relevant curriculum and co-curricular activities to provide our students with opportunities to learn and excel in academics as well as in life.

Education at MITCON International School is a joyous journey. We invite you to come, share and experience these as your child sets on a path of lifelong learning.

**Dr. Pradeep Bavadekar**  
Managing Trustee

**Mrs. Monika Chhabra**  
Principal

## From Principal's Desk

MITCON International School promotes holistic and harmonious development of a child in all aspects be it social, academic or athletic.

Our new age approach to education embodies the true spirit of unlocking your child's potential. Our priority is engraining strong moral values in your child which will guide them towards success in life. Our school has a Robotics Lab to help your child hone his/her tech savvy skills, along with Music & Dance Studios to enhance their performing arts. Our Athletics Department will encourage your child to inculcate healthy competitive spirit in a truly graceful manner. Mitconites are also taught CODING right from Grade 1 to make them future ready for A.I.

We at MITCON strive to make our children all rounders with impeccable skills and etiquettes

# MIS aims at all round development

# Pedagogical Approach

## ■ Pre-Primary

At MIS we ensure opportunities for holistic learning and growth. We lay emphasis on maximizing the inherent potential of students in an optimum way. We make the kids learn best by involving them in hands-on activities where they get to observe, touch and experiment. This also develops their critical thinking skills. This ensures a smooth transition to a primary school environment. At MIS each child is valued, respected, feels safe, secure, and develops a positive self-concept. To achieve this, we address the six domains of holistic development through an integrated approach and follow practices that are child-centered.

## Six Domains of Development

**Language Development** readies children for effective communication and encourages expressive language. It develops familiarity with print material, develops vocabulary and ability to handle books. It also helps in understanding directionality and finding meaning in writing.

**Numeracy Development** includes pre-number concept, classification, sequential thinking, seriation, problem solving and reasoning.

**Cognitive Development** stimulates intellectual curiosity and develops conceptual understanding of the world around by providing opportunities to explore, investigate and experiment.

**Physical Development** enables a sound foundation for fine and gross motor development.

**Creative Development** stimulates sense of aesthetic appreciation and stimulates creative learning processes.

**Personal, Social and Emotional Development** enhances development of social skills, social competence and emotional well-being.

## ■ Primary, Middle & Secondary School

Everything around us is rapidly changing, transforming and upgrading — be it the way we communicate, travel, purchase or work. Thus, in turn, the jobs around us are changing as well. The skills required at work place are what the child needs to develop in his primary education itself. The gap between - 'syllabus' and 'skill development' needs to be bridged, so as to develop the 21st Century learner, who needs to be prepared for the real life challenges.

At MITCON International School, we successfully bridge this gap. With **Global Curriculum program**, MIS aims to deliver a skill based, experiential learning to all its students, wherein every topic and concept comes first hand to the child. A classroom at MIS revolves around the **Theory of Multiple Intelligence**, as delivered by world renowned educationist **Prof. Howard Gardner** and it takes the **STEAM approach**.

With the practical implementation of the Theory of Multiple Intelligence, we are able to focus on every child, since there are different types of learners in a classroom who absorb concepts in their own unique way.

**STEAM** is an approach of delivering education to children to prepare them in **Science and Technology, Engineering, Art, and Mathematics**, the core building blocks for any kind of livelihood. It also prepares the child for all competitive exams.

MITCON International School aims at a holistic development of the child, and providing right set of tools to make the children independent, confident and ready to face the world through a curriculum that not just teaches a syllabus, but also develops survival skills among children!

## SPORTS

At MIS, sports are an integral part of curriculum. MIS offers a variety of sporting activities aimed to improve the health and fitness of our students and to nurture individual talents whilst enabling them to enjoy the recreational benefits.

Exposure to individual and team skills through competitive sports inculcates a sense of sportsmanship, a school-wide community spirit and a feeling of individual accomplishment amongst students. Trust, commitment, self-discipline, honesty, respect for the opponent and most importantly grace, whether you win or lose, is at the heart of all sports lessons at MIS.

The school offers Basketball, Football, Cricket, Taekwondo, Chess, Gymnastics and Skating.

The School sports facilities include a huge playground for cricket, football and athletics, basketball court, skating ring and taekwondo training space along with **Indoor games facilities**.

Inter-house and Inter school competitions organized by students provide them with experience of organizing, administering and officiating sports events.

The **importance of sports** and games encompasses more than just the benefit of physical activity. It increases self-esteem and mental attentiveness. It leads to composed psychological and physical progress. It teaches the children life abilities like solidarity, leadership and perseverance. With this objective, sports is given due importance at **MITCON Internation School**.

## Learning Beyond Classroom

At MIS, we believe that every student should experience the world beyond the classroom as an essential part of learning and personal development.

A wide range of opportunities outside the classroom provide real-life experiences and challenges for students. We foster the interests of each child and guide them to realize their full potential in multiple ways. The activities offered are also aimed at building the social and life skills.

The MIS Co-curricular Programme provides enriching experience for our students as they pursue their areas of passion, explore their creative side and enhance their inherent competencies and leadership skills.

Students are encouraged to participate in various forms of learning through Skits, Projects, Exhibitions, Elocution, Talk show, Debates, Visual Art, Music, Sports, Dance, Drama, Field Trips, Picnics, School Clubs, Animation, Coding and Robotics.

Such activities and interactions with experts from different fields assist our students gain a glimpse of professions related to their area of interest.

## Life Skills Education

Knowledge based education influences brain and value based education influences heart. The Life Skills Programme interweaved in the curriculum encourages students to inherit universal values like fearlessness, purity of mind, patriotism and truth; it enhances their self-confidence while improving the power of concentration.

Life Skills such as self-awareness, effective communication, interpersonal relationship, empathy, healthy eating habits, team-building, public speaking, leadership skills, decision making skills, entrepreneur skills, emotional skills are developed through participation in various activities. Also, involvement of students in community service sensitizes philanthropic approach towards life.

## Infrastructure & Facilities:

### Mathematics Laboratory

Mathematics Laboratory is a place where students can learn and explore mathematical concepts and verify mathematical facts and theorems through a variety of activities using different materials.

"The only way to learn Mathematics is to do Mathematics"

To implement this MITCON International School has well designed and fully equipped mathematics lab, where students can explore and learn the mathematical concepts in experiential manner.

### Robotics Lab

Science is all about understanding how things work around us and what better way to stimulate the same other than by means of Robotics. Over the past decade, the subject has taken the world by a storm and it continues to gain momentum. This lab endeavors to provide an effective experiential learning tool for students, using LEGO and Arduino products, which would assist them in understanding the various concepts of science by means of implementing them in a controlled and guided environment. We believe that a close sensitization towards the subject would further facilitate logical and analytical thinking of a child and help him/her effectively translate the learning into success in many walks of life.

### Computer Lab

To equip our students for the future we have a full-fledged computer laboratory with easy access to the latest field of technology. It is an important section of the school which enables student-led workshop and offers them hands on IT knowledge. The school lays emphasis on computer from class 1.

### Science Lab

Effective teaching and learning of science involves seeing, handling and manipulating real objects and material. **MITCON International School** has technically equipped composite science lab, which allows students to interact directly with the scientific concepts. They get a first-hand learning experience by performing various experiments, activities and demonstrations on their own. This way we nurture budding scientists making them ponder on the lines of How and Why.

### **Performing Arts**

The co-scholastic activities are given equal importance along with the scholastic at MIS. Main roots of performing arts are Dance, Movement, Music and Singing. The students get acquaintance to new roles when they enact in Role play. To minimize the stage fright and to inculcate confidence in the students various activities/competitions like Socio-Dramatic Plays, Show & Tell, Extempore and Elocution are held.

### **Athenaeum**

Our Athenaeum is well-equipped with various kinds of books for various age groups. It inculcates reading habits in students from an early age. **Reading** is one of the most fundamental skills that is essential to conquer success in life. Developing good **reading practices** is vital for your child's future not just scholastically, but in everyday life as well. **Reading not just** allows exposure to words and phrases but it also helps the imagination to soar high.

### **Infirmary**

With the objective of providing quick medical assistance, school has a well-resourced **infirmary**. An annual health check for the students of our institution is conducted with the provision of **One-on-One Counseling with Parents** as the health and well being of the young learners is of utmost **importance**. MIS also has a counselor and a special educator to promote an inclusive environment and promote mental well being of students.

### **Refectory**

The school environment is a key setting to address **healthy eating** because students expend a large part of their day in school. It provides a healthy and appealing breakfast and lunch service to the students and faculty of the school. It is optional for students.

# Admission

## ADMISSION PROCESS

Admissions are given subject to fulfillment of criteria & availability of seats without any reference to caste, creed, class, gender or political inclination.
