Founder's message

Dear Parents

In the changing scenario of education, there is no field left untouched by stiff competition. Armed with excellent infrastructure and educational facilities, our schools are an ideal choice for parents seeking a qualitative educational institution for their children. JSPM provides a pollution free environment with complete personalized attention for its students.

After all quality in education leads to a higher quality in life and that is what we at JSPM are constantly striving for.

Principal's Desk

Dear Parents,
Jayawant Public School is a school with a difference! We value individualization, creativity and innovation and strive to nurture them in our students.

JPS Hadapsar believes in creating Happy and Empowered students. We have a vision to incorporate life skills based education through collaborative approach to learning. Children are exposed to immense experiential activities wherein each child learns by 'mode of doing'.

Our endeavor is to inspire and empower our students to be life-long learners, critical thinkers and productive members of an ever changing global society. Students are motivated to channelize their potential in the pursuit of excellence in a holistic, student-centered environment.

The chief motive of our institution is to synthesize the modern knowledge and technology with the values of Indian culture. The student leadership is given utmost priority. Our motto is to link education with real world outside the school boundary. The focus is to create a school where students are connected to the real world and contribute meaningfully to the society.

I am confident that JPS Hadapsar will always be a beacon of light guiding the destiny of its students while radiating kindness and compassion as it soars high in its pursuit of academic excellence and fulfillment of the school mission- "Preparing students to face global challenges maintaining high ethical and moral standards by providing, nurturing and maintaining an environment of high academic excellence, research and entrepreneurship".

Our success lies in TEAM approach to education- Each stakeholder contributes to the development of students in some way or the other. Together each one Achieves More (TEAM).
