Education is the manifestation of the perfection already in Man.

**Dr. Shilpa Jejurkar**  
Principal & Administrator

It gives me an immense sense of happiness and honour to announce that Amber International School is all set to commence its new session with renewed enthusiasm and commitment to impart quality 360° degree education to its extra inquisitive learners.

With the changing paradigms of education which hold no space for rote learning and passive listening, we will continue to provide our students with opportunities and situations that facilitate them to exhibit their hidden potential to the fullest.

I also appeal to my teachers to focus on each and every child, monitor and mentor them, appreciate their achievements and encourage them to overcome their shortcoming. I urge all the teachers to create appropriate, meaningful and participative learning situations, inculcating life skills in the children and appreciating their minutest efforts with all generosity and broadness of vision.

I always say:  
**“Be the best or different from the rest”.....  
The choice is yours! My best wishes for a very eventful and productive academic session !**

Amber International School is our modest effort to etch our name in the memory of time. Right from the inception, our stress was on a design that epitomizes our vision of grooming children as well-rounded future leaders through all-round development across education, extra-curricular activities and sports. We also wanted the infrastructure to be seen as a confidence building measure to assure all parents that their children would only get the very best at Amber International School.

Our vision for **Amber International School** is to offer value-based education to our students led by the four prime values of Courage, Compassion, Equality and Integrity

We believe in nurturing young minds, focusing on the holistic development and bringing forth their moral, ethical, human and spiritual values so that they develop character and confidence with a deep rooted passion in pursuit of excellence.

“  
On the road to success,  
the rule is always to look ahead.....

**Shri Sanjay S Deo**  
CA by Profession | Joint Secretary

Education is the basis of all progress. It is for this very reason that we forayed into education. Over a decade and a half of experience has taught us that progress is possible only, if men and women are equally well-educated.

The entire purpose of education is not to restrict itself to imparting bookish knowledge only but inculcate humanitarian values like wisdom, compassion, courage, humility, integrity and reliability in a student.

We, believe in holistic education for your child, encompassing – academics, co-curricular activities, sports education and life-skills learning. Our endeavour is to strike a balance between state-of-the-art infrastructure and an

internationally acceptable education. At Amber International School we impart education that is based on conscience and we rear a breed of young minds that are bustling with self confidence, motivation and ever ready to take up challenges.

The campus, sports and academic facilities all bear testimony to this effort. In order to promote an internationally acceptable education, our key focus has been on faculty development – providing continuous teacher training in order to deliver real value education and excellence in academics. Teachers are trained not only to teach well but are also expected to inspire confidence and trust in their students and become role models.
